This Trustee annual report ('report') was prepared by Avanteos Investments Limited ABN 20 096 259 979, AFSL 245531 (the 'Trustee', 'we', 'us', 'our', or 'AIL') on 18 December 2023. AIL is the trustee of and issuer of interests in the Avanteos Superannuation Trust ABN 38 876 896 681 (the 'Fund'). You should read this report in conjunction with your Member benefit statement. FirstWrap Super and Pension and FirstWrap Plus Super and Pension ('FirstWrap' or the 'Service') are part of the Avanteos Superannuation Trust.

Colonial First State (CFS) is Superannuation and Investments HoldCo Pty Limited ABN 64 644 660 882 and its subsidiaries which include AIL and Colonial First State Investments Limited ABN 98 002 348 352, AFSL 232468 (CFSIL). CFS is majority owned by an affiliate of Kohlberg Kravis Roberts & Co. L.P. (KKR), with the Commonwealth Bank of Australia ABN 48 123 123 124, AFSL 234945 (CBA) holding a significant minority interest. The investment performance and the repayment of capital of AIL and CFSIL products is not guaranteed. Investments in AIL and/or CFSIL products are investment type products subject to investment risk, including possible delays in repayment, and loss of income and capital invested.

The Trustee has made every attempt to ensure the accuracy of the information included in this report and the Trustee has, in some cases, relied on information provided by third parties. The Trustee does not accept responsibility as to the accuracy and completeness of information provided from another source.

The information provided in this document is general information only and does not take into account your objectives, personal financial or taxation situation, or needs. Because of that, before acting on the information, you should consider its appropriateness having regard to these factors. You should talk to your adviser and obtain financial advice relevant to your personal circumstances, and you should consider the relevant Product Disclosure Statement, before making any decision to acquire, or continue to hold, an interest in the product.

AIL and CFSIL are not registered tax (financial) advisers under the *Tax Agent Services Act 2009* (Cth), and you should seek tax advice from a registered tax agent or a registered tax (financial) adviser if you intend to rely on this information to satisfy the liabilities or obligations or claim entitlements that arise, or could arise, under a taxation law. Taxation considerations are general and based on present taxation laws, rulings and their interpretation as at 1 December 2023. You should seek independent, professional tax advice before making any decision based on this information.

# Introduction

Dear member,

I am pleased to present the Trustee annual report for the financial year ended 30 June 2023 for FirstWrap Super and Pension and FirstWrap Plus Super and Pension ('FirstWrap' or the 'Service') which form part of the Avanteos Superannuation Trust (the Fund).

In this report you will find information about product and regulatory changes that may affect your superannuation.

You should read this Trustee annual report with your Member benefit statement as this contains important information about contacting the Fund, the details of your investment performance, investment earnings, fees and charges and other information relating to your account. Together, this document and your Member benefit statement make up your annual report.

If you have any queries about this Trustee annual report, please contact your adviser.

Yours sincerely,

A stylized handwritten signature in black ink.

# Regulatory changes

The information contained in the following sections is general information only and does not take into account your objectives, personal financial situation, or needs. You should assess whether the information is appropriate for you and talk to your adviser for further information. The information in this section is current as of 1 December 2023.

## Recent legislative changes to superannuation

The following are some key changes to superannuation legislation which have taken effect during 2022-23.

### End of the work test for acceptance of super fund contributions

Prior to 1 July 2022, you must have satisfied a work test (or alternatively qualify for a work test exemption) for your super fund to accept most types of voluntary superannuation contributions made while you are aged 67 to 74.<sup>1</sup>

From 1 July 2022, superannuation funds can accept all types of voluntary contributions from members in this age group without a work test or work test exemption (existing contributions caps still apply). This means there are no contributions, from 1 July 2022, that require you to meet a work test for the super fund trustee to accept the contribution.

However, from 1 July 2022, members aged 67 to 74<sup>1</sup> at the time of making a personal contribution, will need to satisfy a work test or work test exemption in the year of the contribution to be eligible to claim a tax deduction for their contribution. This is in addition to notifying the super fund, within required timeframes, that they intend to claim a tax deduction for the contribution.

### Increase in maximum age to use 'bring-forward rule'

The bring-forward rule may allow you to make up to \$330,000 in non-concessional contributions at one time, which is above the standard cap of \$110,000 per financial year (based on 2023-24 cap amount). If your total superannuation balance is \$1.9 million or more, just before the start of the financial year, your non-concessional contributions cap will be zero, and you don't have access to the bring-forward rule.

From 1 July 2022, the ability to use the bring-forward rule was extended to people under age 75 (up from age 67) at any time during the financial year.

It is important to note that your non-concessional contributions cap (including under the bring-forward rule) may also be reduced based on your total superannuation balance.

### Increased maximum releasable amount under the First Home Super Saver Scheme

Prior to 1 July 2022, a person could only apply to have up to \$30,000 of their eligible voluntary contributions, plus a deemed earnings amount, released from super to purchase their first home, under the First Home Super Saver Scheme (FHSSS).

From 1 July 2022, up to \$50,000 of eligible voluntary contributions, plus a deemed earnings amount, may be released from super to purchase a first home, under the FHSSS.

### Reduction of the eligibility age for downsizer contributions

The downsizer contribution allows people to make a one-off, after-tax contribution to super of up to \$300,000 from the proceeds of selling their home they have held for at least 10 years.

Under the rules both members of a couple can make downsizer contributions in respect of the same home, and the contributions do not count towards a member's non-concessional contributions caps.

Prior to 1 July 2022, you had to be aged 65 or over to make a downsizer contribution. Then during 2022-23 the minimum age to make a downsizer contribution reduced twice. On 1 July 2022 it reduced from 65 to 60. Then on 1 January 2023, it reduced again from 60 to 55.

### Removal of the \$450 per month minimum Super Guarantee threshold

From 1 July 2022, the \$450 per month minimum Super Guarantee income threshold has been removed. Prior to 1 July 2022, an employer was not required to pay Super Guarantee contributions for an employee who earned less than \$450 per month.

<sup>1</sup> Age 74 includes the period up to 28 days after the end of the month in which you turn 75.

## Minimum payments for certain pensions temporarily reduced

In 2019-20 the minimum draw-down requirement for account based pensions (including transition to retirement pensions) was temporarily reduced by 50%. This reduction was then further extended to the 2020-21, 2021-22 and 2022-23 financial years. However, from 1 July 2023 the temporary reduction ceased and the minimum draw-down requirement reverted to the standard minimum percentage factors. See the below table.

Age	Standard minimum percentage factor	Reduced minimum percentage factor (2019–20 to 2022–23 financial years)
Under 65	4%	2%
65 to 74	5%	2.5%
75 to 79	6%	3%
80 to 84	7%	3.5%
85 to 89	9%	4.5%
90 to 94	11%	5.5%
95 or over	14%	7%

The minimum payment for term allocated pensions was also temporarily reduced by 50% for the 2019–20 to 2022–23 financial years which allowed you to choose a pension payment of between 45% and 110% of the calculated amount. From 1 July 2023, the standard minimum pension payment rules apply, which means you can choose a pension payment of between 90% and 110% of a standard calculated amount.

## Proposed changes to superannuation

The following are some key future changes to superannuation legislation which have been announced by the government, but as at 1 December had not become law.

### Additional 15% tax on earnings from super balances exceeding \$3 million

On 28 February 2023, the Treasurer announced from the 2025-26 financial year, the concessional tax rate applied to future earnings on balances above \$3 million will be 30% (rather than the standard concessional rate of 15% on accumulation balances).

Earnings relating to assets below the \$3 million threshold will continue to be taxed at 15 per cent or will be tax-free if derived from assets supporting a retirement phase income stream, such as an account-based pension.

This announcement requires the passage of legislation through Parliament and is not yet law.

### Requiring employers to pay Superannuation Guarantee (SG) at the same time as salary and wages

In May 2023, the government announced in the federal budget that employers will be required to pay their employee's SG entitlements at the same time as their salary and wages from 1 July 2026. Currently, employers are required to pay their employees' superannuation guarantee contributions on a quarterly basis.

The government says that this proposal will make it easier for employees to keep track of their payments and increase their overall retirement benefit.

# Product changes

Below is a summary of recent product changes that occurred during the 2022–23 financial year.

## Changes to fees and costs

The 2022–23 financial year saw some changes to fees and costs:

### Adviser fees

We made a minor amendment to better reflect how adviser fees are deducted from your superannuation or pension account. Where an ongoing Adviser Service Fee arrangement is not renewed, fees will cease on the 'consent end date' (which cannot exceed 150 days from the Anniversary Date) provided in your written consent.

There was no change to how and when adviser fees are paid.

### Cash account fee

We amended the range for the Cash account fee in the 'Fees and costs summary' table as follows:

Up to 1.500% pa of your cash account.

The current Cash account fee can be found at **firstwrap.com.au** under 'Offer documents'. The range for the Cash account fee was also amended in the 'Example of annual fees and costs for superannuation products' section and the 'Cost of product for 1 year' section.

We do not deduct this fee directly from your account but instead take the fee from the investment returns before interest is paid to your account. The Cash account fee rate may change if there are changes in the Reserve Bank of Australia Official Cash Rate and/or the interest rate we receive. On 1 November 2022 we increased the Cash account fee rate for the first time, following a series of interest rate rises during the 2022 calendar year.

The current Cash account fee can be found at **firstwrap.com.au** under 'Offer documents'.

## Significant events (summary of material changes)

Access a summary of each significant event or notices regarding material changes that may impact you at **firstwrap.com.au** (under 'Member information' then click on 'About the product').

## Responsible Investment policy and voting policy

We replaced the existing reference to the Trustee Responsible Investment and voting policy which are policies that have been created for AIL to incorporate Environmental, Social and Governance (ESG) and Climate change factors in investment decisions and active ownership.

The Trustee's voting policy is explained within the 'AIL Responsible Investment policy' found at **cfs.com.au/content/dam/cfs-winged/documents/about-us/corporate-governance/AIL-Responsible-Investment-Policy.pdf**

# Investment information

## Investments

### Investments

For a full list of investments refer to the Investment List available at [firstwrap.com.au](https://firstwrap.com.au) under 'Offer documents'.

### Investment performance information

Information about investment performance can be found in your Member benefit statement. This information has been tailored to the specific assets you held at 30 June 2023. If you would like to know more about the performance of the investment options available in FirstWrap, please speak to your adviser.

### Standard risk measures

To allow you to compare investment options, we have provided standard risk measures showing the estimated number of negative annual returns over any 20-year period for each investment category.

The standard risk measure is not a complete assessment of all forms of investment risk; for instance, it does not detail the potential size of a negative return nor the possibility that a positive return is less than an investor's investment objectives. Also, it does not take into account the impact of administration fees, tax or the likelihood of a negative return or an investor's personal needs and financial situation.

You should still ensure you are comfortable with the risks and potential losses associated with your chosen investment option(s). The standard risk measure is not personal advice and you should regularly review your investment decision with your adviser. The table below outlines the labelling of risk measures and categories.

Risk band	Risk label	Estimated number of negative annual returns over any 20-year period
1	Very low	Less than 0.5
2	Low	0.5 to less than 1
3	Low to medium	1 to less than 2
4	Medium	2 to less than 3
5	Medium to high	3 to less than 4
6	High	4 to less than 6

Risk band	Risk label	Estimated number of negative annual returns over any 20-year period
7	Very high	6 or greater

These risk labels can be found in the Investment Category tables on pages 10 to 21.

### Investments with a market value of over 5% of the Service

As at 30 June 2023, the combination of investments that had a combined value in excess of five per cent of the total assets of the Service were held in the following enterprises:

- Colonial First State (5%)
- Equity Trustees Ltd (5%)
- Vanguard Investments Australia Ltd (12%)

The above holdings may be made up of several investments including cash deposits, term deposits and listed securities.

In addition, as at 30 June 2023, there were no investments in which the Trustee held more than five per cent of the total assets of the Service.

### Other important information you should know

The Trustee does not guarantee your investment in the Fund, nor any income or the rate of return. The value of your account rises or falls depending on the performance of the investments selected.

The Trustee strongly recommends you consult with your adviser when formulating an investment strategy to ensure that it fits with your investment objectives.

The Trustee does not specifically take into account labour standards or environmental, social or ethical considerations when making investments available. However, where those factors negatively impact investment performance or company stability, we may consider these factors to the extent that they impact on an investment manager's organisational stability, reputation and performance. We may discuss these matters with company management and/or review our decision to hold the specific investment. Reviews are on a case-by-case basis as such factors arise. We do not use any specific methodology for such reviews or have pre-determined views about the extent to which such factors will be taken into account in a review. Each investment manager may have its own policy on the extent to which labour standards or environmental, social or ethical considerations are taken into account when making investment

decisions. Some investment options do take one or more of these factors into account, and the investment's product disclosure document will outline the extent to which these factors are taken into account. These policies are not specifically considered in making investments available.

## Maintaining reserves

The Trustee has established a general reserve account primarily to be used to fund members' requests for rollovers or transfers (whether partial or whole), pension payments and some categories of benefit payments, including severe financial hardship and compassionate grounds, where the amount requested is attributable to a suspended investment option of the Fund that cannot be redeemed at the time of request and is below the materiality threshold. The materiality threshold for the Fund is that the member's holding in the suspended investment is to be less than \$6,000.

The Trustee holds the general reserve monies within the Fund's cash account. The following table outlines the movements in the reserve over each of the last three financial years.

# Investment categories

The following pages contain summary descriptions of each of the investment categories available to investors in FirstWrap. These descriptions include the investment objective of each category but you should be aware that actual returns may be positive or negative.

The Investment List contains more information on the investment options under each category. You should speak with your adviser for further information on any of these categories or to obtain a copy of the Investment List. The Investment List is also available online at [firstwrap.com.au](http://firstwrap.com.au) under 'Offer documents' or by contacting us on 1300 769 619.

## Fund investment strategies and objectives

The Trustee formulates and gives effect to investment strategies and objectives for the Fund. These strategies and objectives take into account the whole of the circumstances of the Fund, including investment risk, diversification, liquidity and the ability of the Fund to discharge liabilities.

The Trustee has recommended investment guidelines to encourage diversification, ensure adequate liquidity and satisfy regulatory requirements. In line with our obligations, the Trustee reviews the investment strategies and applicable guidelines on a regular basis.

Please contact your adviser for further information on these guidelines or refer to the Investment List.

The investment strategy of the Fund is to provide a range of investment categories that are relevant for your Fund (or plan/subsection). The Trustee makes available to members a broad range of investment options within the investment categories. Members can achieve suitable diversification within an investment choice environment by selecting a combination of investment options across multiple asset classes.

## Holding restrictions

The Trustee may need to comply with substantial holding restrictions on individual listed securities from time to time, for example, if holdings within an individual security exceed a certain percentage. The restriction will be lifted if and when capacity becomes available. Pending transactions will then be allocated on a first-in basis and new purchases will be accepted.

## Investment review 2022

The Trustee conducts an annual review of all the investment categories and ASX listed shares available in the Fund. Managed investment schemes are reviewed quarterly.

The review is conducted with the assistance of research providers and external consultants with the results presented to the Trustee's Board Investment Committee for consideration.

Once the review of investments currently available in the Fund is complete, a list of any investments removed by the Trustee will be available electronically via the Investment News link on our website at [firstwrap.com.au](http://firstwrap.com.au).

In the event you hold investments in your investment portfolio that are outside the list of investments currently available, we may contact you or your adviser and request these investments be sold. If we do not hear from you or your adviser, we may sell your holdings that are outside the list of available investments and deposit the proceeds into your cash account.

## Additional diversification guidelines

In addition to the diversification guidelines for the listed Australian securities and listed interest rate securities investment categories outlined above, the Trustee has also determined:

- a maximum holding of 20 per cent in any security within the S&P/ASX300, and
- a maximum holding of five per cent in any single security outside the S&P/ASX300, unless a higher guideline has been approved by the Trustee.

The Trustee also imposes a guideline of five per cent on unlisted investments, excluding fixed interest products.

## Derivatives

The Trustee does not, and does not intend to offer derivative instruments (as defined by the *Superannuation Industry (Supervision) Act 1993*) on the approved product list for direct investment. External investment managers may use derivatives in managing pooled investment vehicles in which the member may invest. In such cases this will be included in the investment manager's disclosure document which members receive prior to investing. Company issued options may be issued to investors holding ASX listed securities and the Trustee will allow members to hold these units within their account on the platform.

# General information

## Insurance

You have the option to take out insurance cover in addition to your investments. The following insurance benefits are available:

- Life cover
- Life & total and permanent disablement (TPD) cover
- Income protection cover

For more information about your insurance options, or to find out about retail insurance options available, please speak to your adviser.

## Indemnity insurance

The Trustee is covered by indemnity insurance in relation to its responsibilities under FirstWrap Super and Pension and FirstWrap Plus Super and Pension. The directors and the Trustee and its associated companies are covered by indemnity insurance in excess of \$20 million.

## General superannuation information

You can obtain further general information on superannuation via the ATO website at [www.ato.gov.au/Individuals/Super](http://www.ato.gov.au/Individuals/Super)

## Unclaimed money, lost members and inactive accounts

### Unclaimed money and lost members

We are required to pay your account balance to the ATO if:

- you are 65 years or older, we have not received a contribution or rollover to your account in two years, and we have been unable to contact you after making reasonable efforts for five years
- your account is subject to a family law payment split, but after making reasonable efforts and a reasonable period of time has passed, we are unable to identify the ex-spouse entitled to the super benefit
- you are deceased, we have not received a contribution or rollover to your account in the past two years, and we can't (after reasonable attempts and a reasonable period of time) identify a person entitled to your super benefit
- you are a lost member and either:
  - your account balance is less than \$6,000; or
  - we have not received a contribution or rollover to your account in the last 12 months, and we do not have enough

information to identify you and would not be able to pay an amount to you.

You will be a lost member where:

- at least one written communication has been sent back to us undelivered and we believe on reasonable grounds you can no longer be contacted at any address known to us, or we've never had an address for you, and we have not received a contribution or rollover to your account within the last 12 months and you have not contacted the Fund or accessed information about your account electronically within the last 12 months of your membership, or
- you joined the Fund as a result of an agreement between your employer and the Trustee of the Fund, and you have been a member of the Fund for longer than two years, and the Fund has not received a contribution or rollover to your account in five years.

We may also voluntarily pay your account balance to the ATO when the above conditions have not been met, if we reasonably believe paying the amount to the ATO is in your best interests.

If your account balance is transferred to the ATO, you will no longer be a member of the Service and you will lose any insurance cover. You will also no longer be invested in your chosen investment option(s). Interest will accrue on your account balance from the time it is paid to the ATO. You may claim your benefit by contacting the ATO on 13 10 20 or downloading a form from its website [www.ato.gov.au](http://www.ato.gov.au)

### Inactive accounts with a low account balance

If your account has no insurance cover, your account balance is below \$6,000, you have not met an eligible condition of release, and we have not received a contribution or rollover to your account for a continuous period of 16 months (inactive low balance account), we are required by law to report and transfer your account to the Australian Taxation Office (ATO).

Your account will no longer be considered inactive and will not be transferred to the ATO, if for example, during the 16 month period you have changed your investment options, changed your insurance cover, made or altered a binding beneficiary nomination, or instructed us not to transfer your inactive low balance account to the ATO.

We will report on and transfer inactive low balance accounts to the ATO twice a year, in accordance with legislated timeframes. The ATO will transfer your balance to your active super account, where possible.

## Temporary residents

If you are a temporary Australian resident, you can only receive a superannuation benefit in limited circumstances.

You are entitled to a Departing Australia Superannuation Payment (DASP) benefit equal to your account balance (less tax and any applicable charges), if:

- you entered Australia on a temporary visa
- you are not an Australian or New Zealand citizen, permanent resident in Australia or the holder of a 405 (investor retirement) or 410 (retirement) visa
- you leave Australia
- your temporary visa has ceased to have effect.

Tax is withheld by the Fund from the taxable component of a DASP benefit. More information is available on the ATO website [www.ato.gov.au/super](http://www.ato.gov.au/super)

If you are a temporary resident, you may only otherwise be paid the following super benefits from FirstWrap.

- a death benefit
- a terminal illness benefit
- a permanent or temporary incapacity benefit
- the payment of a release authority (for example, for the release of excess contributions).

You will not be considered a temporary resident if you:

- are an Australian or New Zealand citizen
- are a permanent resident of Australia
- hold a 405 or 410 retirement visa, or
- have never held a temporary visa for Australia.

You should speak with your adviser or tax specialist about the tax that may apply to your superannuation benefits.

If you have not requested a DASP benefit within six months of the later of your temporary visa expiring and you leaving the country or if you commence a pension when you are not in fact entitled to, we may be required to pay your account balance to the ATO. In these circumstances, you will no longer be a member of FirstWrap and entitled to your pension. You will lose any insurance cover you may have had. You will also no longer be invested in your chosen investment option(s).

We rely upon ASIC Corporations Unclaimed Superannuation – Former Temporary Residents Instrument 2019/873, which releases us from the requirement to notify you or give you an exit statement upon transferring your benefit to the ATO. If your account balance has been transferred to the ATO, you may claim your benefit including

interest that accrues from the time it is paid to the ATO by completing the DASP online application at [www.ato.gov.au](http://www.ato.gov.au)

## Working Holiday Makers

Departing Australia Superannuation Payments (DASPs) made to Working Holiday Makers are taxed at a different rate to those paid to other temporary residents.

You are classified as a Working Holiday Maker where you hold or have held a 417 Working Holiday visa or a 462 Work and Holiday visa. Please refer to your adviser or the ATO website for further information.

## Member benefit statement

You would have recently received your Member benefit statement. You may have noticed that the statement includes transactions for 30 June 2022 fund earnings tax. Transactions for 30 June 2023 fund earnings tax will appear in next year's statement.

## Allocation of earnings into members' accounts

Income or interest received from each underlying investment within the Fund will be allocated to your account in proportion to your holding in that investment.

In certain situations we may not be able to apply a contribution until required information or documentation is received. In these situations we will hold the contribution in a non-interest bearing applications account until:

- the date we receive the required information or documentation; or
- a maximum of 30 days from the date of receipt of the contribution in which event, we will return the contribution to the source of payment. In the meantime we will attempt to contact you and/or your adviser.

## Information about the Trustee

The Trustee of the Fund is Avanteos Investments Limited (AIL).

The Trustee is responsible for all matters concerning the management, operation and administration of the Fund, including compliance with applicable legislation.

The Trustee was appointed pursuant to the Trust Deed that governs the Avanteos Superannuation Trust including FirstWrap Super and Pension and FirstWrap Plus Super and Pension and holds RSE licence L0002691 issued by APRA. The terms of

the Trust Deed prevail to the extent of any inconsistency with the offer documents or other Fund communications.

The Trustee has an Australian Financial Services Licence (Number 245531) issued by the Australian Securities & Investments Commission. The licence, among other things, authorises the Trustee to issue, apply for, vary and dispose of interests in the Fund.

The Trustee does not give advice in relation to investments in the Fund.

No penalties have been imposed on the Trustee under section 38A of the *Superannuation Industry (Supervision) Act 1993* or section 182 of the *Retirement Savings Accounts Act 1997*.

## Fees charged by the Trustee

Please refer to the PDS for information on the fees charged and your Member benefit statement for the actual fees charged on your account. Fees are charged on a particular basis arranged with your adviser when you joined the Service. The PDS is available via **firstwrap.com.au** under 'Offer documents'.

We may at our discretion reduce or waive any of the fees and costs disclosed in the PDS.
