## DIRECTORS' REPORT FOR THE REPORTING PERIOD ENDED 30 JUNE 2013

### Review of Operations (continued)

#### Exit Prices

The exit price is the price at which unitholders realise an entitlement in a Fund and is calculated by deducting a predetermined cost of selling (commonly known as the "sell spread"), if applicable, from the net asset value per unit ("NAV unit price") of a Fund. NAV unit price is calculated by taking the total fair value of all of a Fund's assets on a particular day, adjusting for any liabilities and then dividing the net fund value by the total number of units held by unitholders on that day.

The following unit prices represent the ex-distribution exit unit prices as at 30 June 2013, together with comparative unit prices as at 30 June 2012:

## DIRECTORS' REPORT FOR THE REPORTING PERIOD ENDED 30 JUNE 2013

### Scheme Information

The Funds are registered managed investment schemes domiciled in Australia and have their principal place of business at Ground Floor Tower 1, 201 Sussex Street, Sydney, New South Wales, 2000.

### Unit Pricing Adjustments Policy

There are a number of factors used to calculate unit prices. The key factors include asset valuations, liabilities, debtors, the number of units on issue and where relevant, transaction costs. When the factors used to calculate the unit price are incorrect an adjustment to the unit price may be required. The Responsible Entity uses a variance of 0.30% (0.05% for a cash investment option) in the unit price before correcting the unit price.

If a unit pricing error is greater than these tolerance levels the Responsible Entity will:

- compensate unitholders' accounts balance if they have transacted on the incorrect unit price or make other adjustments as the Responsible Entity may consider appropriate, or
- where unitholders' accounts are closed we will send them a payment if the amount of the adjustment is more than \$20.

These tolerance levels are consistent with regulatory practice guidelines and industry standards. In some cases Responsible Entity may compensate where the unit pricing error is less than the tolerance levels.

There were no significant changes in the nature of the Funds' activities during the reporting period.

The auditor of the Funds is in no way indemnified out of the assets of the Funds.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE REPORTING PERIOD ENDED 30 JUNE 2013

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### (a) Basis of Preparation

The financial report is a general purpose financial report, which has been prepared in accordance with the Funds' Constitutions and the requirements of the Corporations Act 2001, which includes Accounting Standards. Other mandatory professional reporting requirements have also been complied with.

The financial report is prepared on the basis of fair value measurement of assets and liabilities except where otherwise stated.

The Balance Sheets are presented on a liquidity basis. Assets and liabilities are presented in decreasing order of liquidity and are not distinguished between current and non-current. All balances are expected to be settled within twelve months, except for financial assets held for trading, loans and net assets attributable to unitholders. The amounts expected to be recovered or settled after more than twelve months in relation to these balances cannot be reliably determined, except as otherwise stated.

The Funds are for-profit unit trusts for the purpose of preparing the financial statements.

The financial report was authorised for issue by the Directors of the Responsible Entity on 27 August 2013. The directors of the Responsible Entity have the power to amend and reissue the financial statements.

The current reporting period is from 01 July 2012 (or date of registration of the Fund) to 30 June 2013. The comparative reporting period is from 01 July 2011 (or date of registration of the Fund) to 30 June 2012.

Both the functional and presentational currency of the Funds are Australian dollars.

Comparative figures are, where appropriate, reclassified so as to be comparable with the figures and presentation in the current reporting period.

The Financial Report complies with Australian Accounting Standards, which include Australian equivalents to International Financial Reporting Standards ("AIFRS"). Compliance with AIFRS ensures that the financial report, comprising the financial statements and notes thereto, complies with International Financial Reporting Standards ("IFRS").

The Funds are registered schemes of a kind referred to in Class Order 98/0100 (as amended) issued by the Australian Securities & Investments Commission relating to the "rounding off" of amounts in the Directors' Report and the Financial Report. Amounts in the Directors' Report and the Financial Report have been rounded to the nearest thousand dollars in accordance with that Class Order, unless otherwise indicated.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE REPORTING PERIOD ENDED 30 JUNE 2013

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### (b) Investments in Financial Assets and Liabilities Held for Trading

##### (i) Classification

The Funds' investments are classified as held for trading and initially recognised at fair value not including transaction costs, which are expensed in the Statements of Comprehensive Income.

##### (ii) Recognition/Derecognition

The Funds recognise financial assets and financial liabilities on the date it becomes party to the contractual agreement (trade date) and recognises changes in fair value of the financial assets or financial liabilities from this date.

The derecognition of a financial instrument takes place when the Funds no longer control the contractual rights that comprise the financial instrument, which is normally the case when the instrument is sold, or all the cash flows attributable to the instrument are passed through to an independent third party.

##### (iii) Measurement

After initial recognition, the financial assets held for trading are revalued to fair value at each reporting date.

The fair value of units in unlisted Managed Investment Schemes is determined by reference to published bid prices at the close of business on the Balance Sheet date being the redemption price as established by the underlying Fund's Responsible Entity.

Gains or losses on investments held for trading are recognised in the Statements of Comprehensive Income.

Investments of the Funds which are considered to be held for trading are equity securities, fixed interest and money market securities, derivatives and investments in Managed Investment Schemes.

#### (c) Investment Income

Income is recognised to the extent that it is probable that the economic benefits will flow to the Funds and the income can be reliably measured. The following specific recognition criteria must also be met before income is recognised:

##### (i) Distribution or Dividend Income

Income is recognised when the right to receive the payment is established.

##### (ii) Interest Income

Income is recognised as the interest accrues (using the effective interest rate method, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument) to the net carrying amount of the financial asset.

##### (iii) Changes in Fair Value of Financial Assets Held for Trading

Gains or losses on investments held for trading are calculated and recognised as the difference between the fair value at sale, or at period end, and the fair value at the previous valuation point are recognised. This includes both realised and unrealised gains and losses.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE REPORTING PERIOD ENDED 30 JUNE 2013

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### (d) Cash and Cash Equivalents

Cash and cash equivalents in the Balance Sheets comprise cash at bank, deposits at call with futures clearing house and short-term bank deposits with an original maturity of three months or less.

For the purposes of the Cash Flow Statements, cash and cash equivalents are as defined above, net of outstanding bank overdrafts.

#### (e) Trade and Other Receivables

Receivables are recognised and carried at the original invoice amount, less a provision for any uncollectible debts. An estimate for doubtful debts is made when collection of an amount is no longer probable. Bad debts are written off when identified.

Amounts are generally received within 30 days of being recorded as receivables.

#### (f) Trade and Other Payables

Liabilities for creditors are carried at cost, which is the fair value of the consideration to be paid in the future for goods and services received, whether or not billed to the Funds.

Payables include outstanding settlements on the purchase of financial assets and liabilities held for trading and distributions payable. The carrying period is dictated by market conditions and is generally less than 30 days.

#### (g) Taxation

Under current legislation, the Funds are not subject to income tax provided the unitholders are presently entitled to the income of the Funds and the Funds fully distribute their taxable income.

#### (h) Distributions to Unitholders

In accordance with the Funds' Constitutions, the Funds fully distribute their distributable income to unitholders. Distributions are payable at the end of each distributing periods. Such distributions are determined by reference to the taxable income of the Funds. Distributable income includes capital gains arising from the disposal of financial assets and liabilities held for trading. Unrealised gains and losses on financial assets and liabilities held for trading that are recognised as income are transferred to net assets attributable to unitholders and are not assessable and distributable until realised. Capital losses are not distributed to unitholders but are retained to be offset against any realised capital gains.

#### (i) Net Assets Attributable to Unitholders

Under AASB 132 "Financial Instruments: Disclosure and Presentation", contractual obligations are regarded as liabilities. As unitholders have the ability to redeem units from the Funds, all net assets attributable to unitholders have been recognised as liabilities of the Funds, rather than as equity. The classification of net assets attributable to unitholders does not alter the underlying economic interest of the unitholders in the net assets and net profit attributable to unitholders of the Funds.

# COLONIAL FIRST STATE - FIRSTCHOICE INVESTMENTS

## NOTES TO THE FINANCIAL STATEMENTS FOR THE REPORTING PERIOD ENDED 30 JUNE 2013

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### (j) Terms and Conditions on Units

Each unit issued confers upon the unitholder an equal interest in the Fund, and is of equal value. A unit does not confer any interest in any particular asset or investment of the Fund. Unitholders have various rights under the Constitution and the Corporations Act 2001, including the right to:

- have their units redeemed;
- receive income distributions;
- attend and vote at meetings of unitholders; and
- participate in the termination and winding up of the Fund.

The rights, obligations and restrictions attached to each unit are identical in all respects.

#### (k) Applications and Redemptions

Applications received for units in the Funds are recorded net of any entry fees payable (where applicable) prior to the issue of units in the Funds. Redemptions from the Funds are recorded gross of any exit fees payable (where applicable) after the cancellation of units redeemed.

#### (l) Goods and Services Tax (GST)

Income, expenses and assets, with the exception of receivables and payables, are recognised net of the amount of GST to the extent that the GST is recoverable from the taxation authority. Where GST is not recoverable, it is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable.

Receivables and payables are stated inclusive of GST.

Reduced input tax credits (RITC) recoverable by the Funds from the Australian Taxation Office are recognised as receivables in the Balance Sheets.

Cash flows are included in the Cash Flow Statements on a gross basis. The GST component of cash flows, which is recoverable from, or payable to, the taxation authority is classified as operating cash flows.

#### (m) Expense Recognition

Expenses are recognised in the Statements of Comprehensive Income when the Funds have a present obligation (legal or constructive) as a result of a past event that can be reliably measured. Expenses are recognised in the Statements of Comprehensive Income if expenditure does not produce future economic benefits that qualify for recognition in the Balance Sheets.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE REPORTING PERIOD ENDED 30 JUNE 2013

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### (n) Use of Estimates

The Funds make estimates and assumptions that affect the reported amounts of assets and liabilities within the next financial period. Estimates are continually evaluated and based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Funds invest in managed investment schemes which are also managed by the Responsible Entity. For the majority of the financial instruments of these managed investment schemes, quoted market prices are readily available. However, certain financial instruments, for example, over-the-counter derivatives or unquoted securities are fair valued using valuation techniques. Where valuation techniques (for example, pricing models) are used to determine fair values, they are validated and periodically reviewed by experienced personnel of the Responsible Entity, independent of the area that created them. Models are calibrated by back-testing to actual transactions to ensure that outputs are reliable.

Models use observable data, to the extent practicable. However, areas such as credit risk (both own and counterparty), volatilities and correlations require management to make estimates. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

#### (o) Unit Prices

Unit prices are determined in accordance with the Funds' Constitution and are calculated as the net assets attributable to unitholders, divided by the number of units on issue. Financial assets and liabilities held for trading for unit pricing purposes are valued on a "last sale" price basis.

#### (p) Transactions in Foreign Currencies

The Funds contained in this Financial Report mainly transact in Australian currency.

#### (q) New Application of Accounting Standards

Certain new accounting standards and interpretations have been published that are not mandatory for 30 June 2013 reporting periods and have not been early adopted by the Fund. The director's assessment of the impact of these new standards (to the extent relevant to the fund) and interpretations is set out below:

- AASB 9 Financial Instruments and AASB 2009-11 Amendments to Australian Accounting Standards arising from AASB 9 and AASB 2010-7 Amendments to Australian Accounting Standards arising from AASB 9 (December 2010) and AASB 2012-6 Amendments to Australian Accounting Standards - Mandatory Effective Date of AASB 9 and Transition Disclosures (effective from 1 January 2015)
- AASB 9 Financial Instruments addresses the classification, measurement and derecognition of financial assets and financial liabilities. The standard is not applicable until 1 January 2015 but is available for early adoption. The directors do not expect this to have a significant impact on the recognition and measurement of the Fund's financial instruments as they are carried at fair value through profit and loss.
- AASB 13 Fair Value Measurement and AASB 2011-8 Amendments to Australian Accounting Standards arising from AASB 13 (effective from 1 January 2013)
- AASB 13 was released in September 2011. It explains how to measure fair value and aims to enhance fair value disclosures. Application of the new standard will impact the type of information disclosed in the notes to the financial statements. The Funds will adopt the new standard from its operative date, which means that it would be applied in the annual reporting period ending 30 June 2014. The directors do not expect this to have a significant impact on the Fund.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE REPORTING PERIOD ENDED 30 JUNE 2013

### 5. FAIR VALUE HIERARCHY OF FINANCIAL ASSETS AND LIABILITIES

The level in which instruments are classified in the hierarchy is based on the lowest level input that is significant to the fair value measurement in its entirety. Assessment of the significance of an input requires judgement after considering factors specific to the instrument.

Investments in unlisted managed investment schemes which have daily liquidity are also classified as Level 1.

The fair value of financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices or alternative pricing sources supported by observable inputs (such as over-the-counter derivatives) are classified within Level 2.

Investments classified within Level 3 have significant unobservable inputs, as they are infrequently traded. Level 3 instruments include shares in unlisted companies, certain unlisted unit trusts and certain corporate bonds. As observable inputs are not available for these instruments, valuation techniques such as discounted cash flows are used to derive fair value.

The various methods adopted in determining the fair value of the Funds' financial instruments are further explained in the 'Summary of Significant Accounting Policies' note to the financial statements.

The Funds' financial assets held for trading are unlisted managed investment schemes which also managed by the Responsible Entity. These Funds are priced daily and offer daily applications and redemptions. The fair value of these investments are therefore classified as Level 1.

The Funds manage their net assets attributable to unitholders as capital, notwithstanding net assets attributable to unitholders are classified as a liability. The amount of net assets attributable to unitholders can change significantly on a daily basis as the Funds are subject to daily applications and redemptions at the discretion of unitholders.

The Funds monitor the level of daily applications and redemptions relative to the liquid assets in the Funds. Liquid assets include cash and cash equivalents and financial assets classified as Level 1 in the "Fair Value Hierarchy of Financial Assets and Liabilities" note to the financial statements.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE REPORTING PERIOD ENDED 30 JUNE 2013

### 9. FINANCIAL RISK MANAGEMENT

Investing activities of a Fund may expose it to a variety of financial risks: market risk (including price risk and interest rate risk), credit risk and liquidity risk.

The overall risk management programme focuses on ensuring compliance with its Product Disclosure Statement/Information Memorandum and seeks to maximise the returns derived for the level of risk to which the Fund is exposed. A Fund may use derivative financial instruments to alter certain risk exposures. Financial risk management is carried out by the respective investment management departments (Investment Managers) and regularly monitored by the Compliance Department of the Responsible Entity.

Different methods are used to measure different types of risk to which it is exposed. These methods include sensitivity analysis in the case of interest rate, foreign exchange and other price risks and ratings analysis for credit risk.

#### (a) Market Risk

##### (i) Price Risk

Financial assets are either directly or indirectly exposed to price risk. This arises from investments held for which prices in the future are uncertain. They are classified on the balance sheet at fair value through profit or loss. All securities investments present a risk of loss of capital. The maximum risk resulting from financial instruments is determined by the fair value of the financial instruments.

An Investment Manager may mitigate price risk through diversification and a careful selection of securities and other financial instruments within specified limits and guidelines in accordance with the Product Disclosure Statement/Information Memorandum or Constitutions and are regularly monitored by the Compliance Department of the Responsible Entity.

The table in part (b) under "Summarised Sensitivity Analysis" of the "Financial Risk Management" note to the financial statements, summarises the impact of an increase/decrease of the Australian and global indexes on a Fund's net assets attributable to unitholders at the end of the reporting periods. The analysis is based on the assumptions that the relevant indexes increased or decreased as tabled with all other variables held constant and that the fair value of the Fund which has indirect exposures to equity securities and derivatives moved according to the historical correlation with the indexes. Any Fund which invests in various asset classes, such as a multi-sector Fund, will have a weighted average movement calculated based on the proportion of their investments in the those classes.

##### (ii) Foreign Exchange Risk

A Fund may holds both monetary and non-monetary assets denominated in currencies other than the Australian dollar. The foreign exchange risk relating to non-monetary assets and liabilities is a component of price risk not foreign exchange risk. Foreign exchange risk arises as the value of monetary securities denominated in other currencies will fluctuate due to changes in exchange rates. The risk is measured using sensitivity analysis.

The Funds contained in this Financial Report do not hold monetary or non-monetary assets denominated in currencies other than the Australian dollars and therefore are not exposed to foreign exchange risk.

##### (iii) Interest Rate Risk

The exposure to interest rate risk of the Funds that contained in this Financial Report is limited to its cash and cash equivalents or bank overdraft, which earns/(charged) a floating rate of interest.

The table in part (b) under "Summarised Sensitivity Analysis" of the "Financial Risk Management" note to the financial statements, summarises the impact of an increase/decrease of interest rates on the Funds' operating profit and net assets attributable to unitholders through changes in fair value or changes in future cash flows. The analysis is based on the assumption that interest rates increase or decrease by a "predetermined basis points" from the year end rates with all other variables held constant. The impact mainly arises from changes in the fair value of debt securities. The "predetermined basis points" are disclosed in the table below.

**COLONIAL FIRST STATE - FIRSTCHOICE INVESTMENT**

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE REPORTING PERIOD ENDED 30 JUNE 2013**

**9. FINANCIAL RISK MANAGEMENT (continued)**

**(b) Summarised Sensitivity Analysis**

The following tables summarise the sensitivity of the Funds' operating profit or loss and net assets attributable to unitholders to interest rate risk, foreign exchange risk and other price risk. The reasonably possible movements in the risk variables have been determined based on management's best estimate, having regard to a number of factors, including historical levels of changes in interest rates and foreign exchange rates, historical correlation of the Funds' investments with the relevant benchmark and market volatility. However, actual movements in the risk variables may be greater or less than anticipated due to a number of factors, including unusually large market shocks resulting from changes in the performance of and/or correlation between the performance of the economies, markets and securities in which the Funds invest. As a result, historic variations in risk variables should not be used to predict future variations in the risk variables.

Certain Funds may not be subject to all these risks and are denoted with "-" in the tables below.
