Past performance is not an indicator of future performance for this option or any other option available from Colonial First State.

All returns are calculated on an annualised basis using exit price to exit price with distributions reinvested, net of management costs, transaction costs and for FirstChoice Wholesale Personal Super and FirstChoice Employer Super net of tax payable by the trustee. All return calculations exclude contribution surcharge, excess contribution tax or individual taxes payable by the investor and all other fees and rebates disclosed in the relevant Product Disclosure Statements (PDSs). For FirstChoice Investments, the 'distribution' component is the amount paid by the way of distribution, which may include net realised capital gains.

Please refer to the PDS for full details of the applicable fees, costs, and benchmarks. The Target Market Determinations (TMD) for our financial products can be found at [www.cfs.au/tmd](http://www.cfs.au/tmd) and include a description of who the financial product is appropriate for.

#### Investment objective

To provide a balance of income and capital growth over the medium-to-long term. To outperform the option's composite benchmark over rolling three-year periods before fees and taxes.

#### Investment strategy

To allocate 60% of investments to growth assets such as shares, property and infrastructure securities and 40% to defensive assets such as fixed interest and cash. In order to provide additional diversification, the portfolio is allocated across a number of leading investment managers. The portfolio aims to hedge currency risk except for the allocation to emerging market shares and part of the allocation to global shares.

#### Investment category

Moderate

#### Minimum suggested timeframe

At least 5 years

#### Income distribution

	Cents per unit	Franking level	Realised capital
Total 20/21 fin yr	13.13	3%	73%
Total 19/20 fin yr	9.15	7%	75%

#### Quarterly contribution per asset class
