Past performance is not an indicator of future performance for this option or any other option available from Colonial First State.

Returns are calculated on a cumulative year-on-year basis which are then annualised. For funds that have been in existence for less than one year, the since inception performance is actual performance since inception and not annualised. Calculations are based on exit price to exit price with distributions reinvested, after ongoing fees and expenses but excluding individual tax, member fees and entry fees (if applicable). Please refer to the PDS for full details of the applicable fees, costs, and benchmarks.

Investment objective

To closely track the Bloomberg AusBond Composite 0+Yr Index with the aim of generating returns (before tax and fees and assuming income is reinvested) comparable to the Australian bond market, as measured by that benchmark over rolling one year periods.

Investment strategy

The option is a passively managed portfolio of bonds which is designed to replicate the benchmark's performance and risk characteristics.

Investment category

Australian fixed interest

Minimum suggested timeframe

At least 3 years
