## DIRECTORS' REPORT FOR THE REPORTING PERIOD ENDED 30 JUNE 2021

### Review of Operations

#### Income

The results of the operations for the Funds for the current and previous reporting periods are tabled below:

Name of Fund	Operating profit/(loss) Attributable to unitholders	
	Period ended 30/06/2021 \$'000	Period ended 30/06/2020 \$'000
Colonial First State Wholesale Indexed Australian Bond Fund	(52,818)	157,120
Colonial First State Wholesale Indexed Global Bond Fund	(19,384)	40,714
Colonial First State Wholesale Indexed Australian Share Fund	1,010,658	(324,717)
Colonial First State Wholesale Indexed Global Share Fund	662,755	102,401
Colonial First State Wholesale Indexed Property Securities Fund	238,035	(178,024)

#### Distribution to unitholders

The total amount distributed to unitholders for the current and previous reporting period are as follows:

Name of Fund	Period ended 30/06/2021 \$'000	Period ended 30/06/2020 \$'000
Colonial First State Wholesale Indexed Australian Bond Fund	106,268	175,401
Colonial First State Wholesale Indexed Global Bond Fund	98,808	11,451
Colonial First State Wholesale Indexed Australian Share Fund	199,076	145,118
Colonial First State Wholesale Indexed Global Share Fund	46,170	255,325
Colonial First State Wholesale Indexed Property Securities Fund	18,026	24,487

Details of the income distributions for the reporting periods ended 30 June 2021 and 30 June 2020 are disclosed in the "Distributions to Unitholders" note to the financial statements.

#### Exit Prices

The exit price is the price at which unitholders realise an entitlement in a fund and is calculated by deducting a predetermined cost of selling (commonly known as the "sell spread"), if applicable, from the net asset value per unit ("NAV unit price") of a fund. NAV unit price is calculated by taking the total fair value of all of the Funds' assets on a particular day, adjusting for any liabilities and then dividing the net fund value by the total number of units held by unitholders on that day.

The following unit prices represent the ex-distribution exit unit prices as at 30 June 2021, together with comparative unit prices as at 30 June 2020:

Name of Fund	30/06/2021 \$	30/06/2020 \$
Colonial First State Wholesale Indexed Australian Bond Fund	1.0212	1.0575
Colonial First State Wholesale Indexed Global Bond Fund	1.2535	1.4074
Colonial First State Wholesale Indexed Australian Share Fund	1.7305	1.4210
Colonial First State Wholesale Indexed Global Share Fund	3.8469	3.0737
Colonial First State Wholesale Indexed Property Securities Fund	1.0233	0.7860

## DIRECTORS' REPORT FOR THE REPORTING PERIOD ENDED 30 JUNE 2021

### Review of Operations (continued)

#### Other considerations

In March 2020, the World Health Organisation declared COVID-19 as a pandemic. Governments in Australia and around the world have introduced significant restrictions to business in order to curb the spread of the virus. These include travel restrictions and quarantines which have disrupted supply chains and resulted in lower consumer demand and general market uncertainty. As a result, the effects of COVID-19 have impacted the global economy, the economies of certain nations and individual issuers, all of which have potentially impacted the Funds' performance. The pandemic has had, and continues to have, an impact on the general business environment and financial markets, which the Responsible Entity is monitoring.

#### Responsible Entity and Directors

The Responsible Entity of the Funds is Colonial First State Investments Limited (the Responsible Entity). The ultimate holding company is the Commonwealth Bank of Australia (CBA) (ABN 48 123 123 124).

The Directors of the Responsible Entity in office during the period and up to the date of the report are:

Name of Director	Date of Appointment or resignation
Anne Ward	Resigned on 31 December 2020.
Penelope James	Appointed on 1 January 2013.
Edward James Eason	Resigned on 30 June 2021.
Benjamin Andrew Heap	Appointed on 1 January 2019.
Gregory Cooper	Appointed 12 November 2019.

The Responsible Entity is incorporated and domiciled in Australia and has its registered office at Ground Floor Tower 1, 201 Sussex Street, Sydney, New South Wales, 2000.

#### Scheme Information

The Funds are registered managed investment schemes domiciled in Australia and have their principal place of business at Ground Floor Tower 1, 201 Sussex Street, Sydney, New South Wales, 2000.

#### Unit Pricing Adjustments Policy

There are a number of factors used to calculate unit prices. The key factors include asset valuations, liabilities, debtors, the number of units on issue and where relevant, transaction costs. When the factors used to calculate the unit price are incorrect an adjustment to the unit price may be required. The Responsible Entity uses a tolerance level of 0.30% (0.05% for a cash investment option) in the unit price to assess corrections.

If a unit pricing error is greater than these tolerance levels the Responsible Entity will:

- compensate unitholders' accounts balance if they have transacted on the incorrect unit price or make other adjustments as the Responsible Entity may consider appropriate, or
- where unitholders' accounts are closed the Responsible Entity will send them a payment if the amount of the adjustment is more than \$20.

These tolerance levels are consistent with regulatory practice guidelines and industry standards. In some cases the Responsible Entity may compensate where the unit pricing error is less than the tolerance levels.

## DIRECTORS' REPORT FOR THE REPORTING PERIOD ENDED 30 JUNE 2021

### Significant Changes in the State of Affairs

On 13 May 2020, CBA entered into an agreement to sell a 55% interest in a company holding 100% of the shares in the Responsible Entity to an affiliate of Kohlberg Kravis Roberts & Co. L.P. (together with its affiliates, KKR). Subject to regulatory approvals, the sale is expected to be completed in the 2021 calendar year and KKR expects to make its investment primarily from its Asian private equity fund. Any changes to the operations of the Responsible Entity or the Funds as a result of this transaction is unknown at present.

There were no other significant changes in the nature of the Funds' activities during the reporting period.

### Matters Subsequent to the End of the Reporting Period

No matters or circumstances have arisen since the end of the current reporting period that have significantly affected, or may significantly affect:

- (i) the operations of the Funds in future financial periods, or
- (ii) the results of those operations in future financial periods, or
- (iii) the state of affairs of the Funds in future financial periods.

### Indemnification and Insurance Premiums for Officers and Auditor

No insurance premiums are paid for out of the assets of the Funds in relation to insurance cover provided to the Responsible Entity or the auditor of the Funds. So long as the officers of the Responsible Entity act in accordance with the Constitutions and the Corporations Act 2001, the officers remain indemnified out of the assets of the Funds against losses incurred while acting on behalf of the Funds. The auditor of the Funds is in no way indemnified out of the assets of the Funds.

CBA has paid insurance premiums for the benefit of the Directors and Officers of the Responsible Entity. Details of the nature of the liabilities covered or the amount of the premium paid has not been included as such disclosure is prohibited under the terms of the insurance contracts.

### Likely Developments and Expected Results of Operations

The Funds are expected to continue to operate within the terms of their Constitutions, and will continue to invest in accordance with their investment objectives and guidelines.

The results of the Funds' operations will be affected by a number of factors, including the performance of investment markets in which the Funds invest. Investment performance is not guaranteed and future returns may differ from past returns. As investment conditions change over time, past returns should not be used to predict future returns.

At the time of preparing this report the Responsible Entity is not aware of any likely developments which would impact upon the future operations of the Funds.

### Fees Paid to and Received by the Responsible Entity or its Associates

Fees paid or payable to the Responsible Entity and its associates out of the Funds' assets during the reporting period are disclosed in the Statements of Comprehensive Income.

No fees were paid to the Directors of the Responsible Entity during the reporting period out of the Funds' assets.

## DIRECTORS' REPORT FOR THE REPORTING PERIOD ENDED 30 JUNE 2021

### Interests in the Funds

The units issued and redeemed in the Funds during the period and the number of units on issue at the end of the financial period are set out in "Changes in Net Assets Attributable to Unitholders" note to the financial statements. The value of the Funds' assets at the end of the financial period are set out in the Balance Sheets.

Any interests in the Funds held by the Responsible Entity or its associates at the end of the reporting period are disclosed in the "Related Parties Disclosures" note to the financial statements.

### Environmental Regulation

The Funds' operations are not subject to any particular or significant environmental regulations under a Commonwealth, State or Territory law. There have been no known significant breaches of any other environmental requirements applicable to the Funds.

### Single Financial Report

The Funds are of the kind referred to in ASIC Corporation Instrument 2015/839 dated 1 October 2015 issued by ASIC in accordance with that ASIC Corporation Instrument, funds with a common Responsible Entity can include the financial statements in adjacent columns in a single financial report.

Proceeds from redeeming units in a fund can be applied to acquire units in other funds included in this financial report.

### Auditor's Independence Declaration

A copy of the Auditor's Independence Declaration as required under Section 307C of the Corporations Act 2001 is set out in the following page.

Signed in accordance with a resolution of the Directors of Colonial First State Investments Limited.

## *Auditor's Independence Declaration*

As lead auditor for the audit of Colonial First State Wholesale Funds (each a Registered Scheme) for the year ended 30 June 2021, I declare that to the best of my knowledge and belief, there have been:

- (a) no contraventions of the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
- (b) no contraventions of any applicable code of professional conduct in relation to the audit.

This declaration is in respect of each Registered Scheme set out in the Directors' Report.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE REPORTING PERIOD ENDED 30 JUNE 2021

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

#### (a) Basis of Preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board and the Corporations Act 2001 in Australia. The Funds are for-profit unit trusts for the purpose of preparing these financial statements.

The Balance Sheets are presented on a liquidity basis. Assets and liabilities are presented in decreasing order of liquidity and do not distinguish between current and non-current. All balances are expected to be recovered or settled within twelve months, except for financial assets at fair value through profit or loss and net assets attributable to unitholders.

The Funds manage financial assets at fair value through profit or loss based on the economic circumstances at any given point in time, as well as to meet any liquidity requirements. As such, it is expected that a portion of the portfolio will be realised within 12 months, however, an estimate of that amount cannot be determined as at balance date.

The financial report was authorised for issue by the Directors of the Responsible Entity on 25 August 2021. The Directors of the Responsible Entity have the power to amend and reissue the financial statements.

The current reporting period for the financial report is from 1 July 2020 to 30 June 2021. The comparative reporting period is from 1 July 2019 to 30 June 2020.

Both the functional and presentation currency of the Funds are Australian dollars.

Comparative figures are, where appropriate, reclassified so as to be comparable with the figures and presentation in the current reporting period.

The Funds are registered schemes of a kind referred to in ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191 relating to the "rounding off" of amounts in the Directors' Report and the Financial Report. Amounts in the Directors' Report and the Financial Report have been rounded to either the nearest dollar or the nearest thousand dollars, as indicated.

#### (i) Compliance with International Financial Reporting Standards

The Financial Report complies with Australian Accounting Standards, which include Australian equivalents to International Financial Reporting Standards ("AIFRS"). Compliance with AIFRS ensures that the financial report, comprising the financial statements and notes thereto, complies with International Financial Reporting Standards ("IFRS").

#### (ii) New and Amended Standards adopted by the Funds

There are no standards, interpretations or amendments to existing standards that are effective for the first time for the financial year beginning 1 July 2020 that have a material impact on the Funds.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE REPORTING PERIOD ENDED 30 JUNE 2021

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### (b) Investments in Financial Assets and Liabilities at Fair Value through Profit or Loss

##### (i) Classification

###### Assets

The Funds classify their investments based on their business models for managing those financial assets and the contractual cash flow characteristics of the financial assets. The Funds' portfolio of financial assets is managed and performance is evaluated on a fair value basis in accordance with the Funds' documented investment strategy. The Funds' policy is for the Responsible Entity to evaluate the information about these financial assets on a fair value basis together with other related financial information.

For equity securities and derivatives, the contractual cash flows of these instruments do not represent solely payments of principal and interest. Consequently, these investments are measured at fair value through profit or loss.

For debt securities, the contractual cash flows are solely payments of principal and interest, however they are neither held for collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Funds' business model objective. Consequently, the debt securities are measured at fair value through profit or loss.

###### Liabilities

The Funds make short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or they may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

##### (ii) Recognition/Derecognition

The Funds recognise financial assets and financial liabilities on the date they become party to the contractual agreement (trade date) and recognise changes in fair value of the financial assets or financial liabilities from this date.

Investments are derecognised when the right to receive cash flows from the investments have expired or have been transferred and the Funds have transferred substantially all of the risks and rewards of ownership.

##### (iii) Measurement

At initial recognition, the Funds measure financial assets and financial liabilities at fair value. Transaction costs of financial assets and financial liabilities carried at fair value through profit or loss are expensed in the Statements of Comprehensive Income.

Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of the financial assets or financial liabilities at fair value through profit or loss category are presented in the Statements of Comprehensive Income within 'net gains/(losses) on financial instruments at fair value through profit or loss' in the period in which they arise.

For further details on how the fair values of financial instruments are determined please see "Financial Assets and Liabilities at Fair Value through Profit or Loss" note to the financial statements.

##### (iv) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Balance Sheets when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously. Refer to the "Offsetting Financial Assets and Financial Liabilities" note to the financial statements for further information.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE REPORTING PERIOD ENDED 30 JUNE 2021

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### (c) Investment Income

Interest income from financial assets at amortised cost is recognised on a time-proportionate basis using the effective interest method and includes interest from cash and cash equivalents. Interest from financial assets at fair value through profit or loss is determined based on the contractual coupon interest rate and includes interest from debt securities.

Dividend and distribution income from financial assets at fair value through profit or loss is recognised in the statements of comprehensive income within dividend income and distribution income when the Funds' right to receive payments is established.

Other changes in fair value for such instruments are recorded in accordance with the policies described in the "Financial assets and liabilities at fair value through profit or loss" note to the financial statements.

#### (d) Due from/to Brokers

Amounts due from/to brokers represent receivables for securities sold and payables for securities purchased that have been contracted for but not yet delivered by the end of the year. The due from brokers balance is held for collection and consequently measured at amortised cost.

These amounts are recognised initially at fair value and subsequently measured at amortised cost. At each reporting date, the Funds shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Funds shall measure the loss allowance at an amount equal to 12-month expected credit losses. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganisation, and default in payments are all considered indicators that a loss allowance may be required. If the credit risk increases to the point that it is considered to be credit impaired, interest income will be calculated based on the gross carrying amount adjusted for the loss allowance. A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due. Any contractual payment which is more than 90 days past due is considered credit impaired.

#### (e) Cash and Cash Equivalents

Cash and cash equivalents in the Balance Sheets comprise cash at bank, deposits at call with financial institutions and short-term bank deposits with an original maturity of three months or less.

For the purposes of the Cash Flow Statements, cash and cash equivalents are as defined above, net of outstanding bank overdrafts.

Derivative cash accounts comprise of margin accounts and cash held as collateral for derivative transactions and short sales. The cash is held by the broker and is only available to meet margin calls.

# COLONIAL FIRST STATE WHOLESALE FUNDS

## NOTES TO THE FINANCIAL STATEMENTS FOR THE REPORTING PERIOD ENDED 30 JUNE 2021

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### (f) Receivables

Receivables may include amounts for dividends, interest and trust distributions. Dividends and trust distributions are accrued when the right to receive payment is established. Interest is accrued at the end of each reporting period from the time of last payment in accordance with the policy set out in note 1(c) above. Amounts are generally received within 30 days of being recorded as receivables.

Collectability of trade receivables is reviewed on an ongoing basis. Debts which are known to be uncollectable are written off by reducing the carrying amount directly. An allowance account (provision for impairment of trade receivables) is used when there is objective evidence that the Funds will not be able to collect all amounts due according to the original terms of the receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments (more than 30 days overdue) are considered indicators that the trade receivable is impaired. The amount of the impairment allowance is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. Cash flows relating to short term receivables are not discounted if the effect of discounting is immaterial.

The amount of the impairment loss is recognised in profit or loss within other expenses. When a trade receivable for which an impairment allowance had been recognised becomes uncollectible in a subsequent period, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against other expenses in profit or loss.

#### (g) Payables

Payables include liabilities and accrued expenses owing by the Funds which are unpaid as at the end of the reporting period. As the Funds have a contractual obligation to distribute its distributable income, a separate distribution payable is recognised in the balance sheets as at the end of each reporting period where this amount remains unpaid as at the end of the reporting period.

#### (h) Taxation

Under current legislation, the Funds are not subject to income tax provided they attribute the entirety of their taxable income to their unitholders.

#### (i) Distributions to Unitholders

Distributions are payable as set out in the Funds' Product Disclosure Statements/Information Memorandums. Such distributions are determined by the Responsible Entity of the Funds. Distributable income includes capital gains arising from the disposal of financial assets and liabilities held at fair value through profit or loss. Unrealised gains and losses on financial assets and liabilities held at fair value through profit or loss that are recognised as income are transferred to net assets attributable to unitholders and are not assessable and distributable until realised. Capital losses are not distributed to unitholders but are retained to be offset against any realised capital gains.

# COLONIAL FIRST STATE WHOLESALE FUNDS

## NOTES TO THE FINANCIAL STATEMENTS FOR THE REPORTING PERIOD ENDED 30 JUNE 2021

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### (j) Net Assets Attributable to Unitholders

Units are redeemable at the unitholders' option, however, applications and redemptions may be suspended by the Responsible Entity if it is in the best interests of the unitholders.

The units can be put back to the Funds at any time for cash based on the redemption price, which is equal to a proportionate share of the Funds' net asset value attributable to the unitholders.

The units are carried at the redemption amount that is payable at balance sheet date if the holder exercises the right to put the units back to the Funds. This amount represents the expected cash flows on redemption of these units.

Units are classified as equity when they satisfy the following criteria under AASB 132 Financial instruments: Presentation:

- the puttable financial instrument entitles the holder to a pro-rata share of net assets in the event of the Funds' liquidation
- the puttable financial instrument is in the class of instruments that is subordinate to all other classes of instruments and class features are identical
- the puttable financial instrument does not include any contractual obligations to deliver cash or another financial asset, or to exchange financial instruments with another entity under potentially unfavorable conditions to the Funds, and it is not a contract settled in the Funds' own equity instruments; and
- the total expected cash flows attributable to the puttable financial instrument over the life are based substantially on the profit or loss.

The Funds' units have been classified as equity as they satisfied all the above criteria.

#### (k) Terms and Conditions on Units

Each unit issued confers upon the unitholder an equal interest in the respective fund, and is of equal value. A unit does not confer any interest in any particular asset or investment of the particular fund. Unitholders have various rights under the Constitutions and the Corporations Act 2001, including the right to:

- have their units redeemed;
- attend and vote at meetings of unitholders; and
- participate in the termination and winding up of the fund.

The rights, obligations and restrictions attached to each unit within each fund are identical in all respects.

#### (l) Applications and Redemptions

Applications received for units in the Funds are recorded net of any entry fees payable (where applicable) prior to the issue of units in the Funds. Redemptions from the Funds are recorded gross of any exit fees payable (where applicable) after the cancellation of units redeemed.

#### (m) Goods and Services Tax (GST)

Income, expenses and assets, with the exception of receivables and payables, are recognised net of the amount of GST to the extent that the GST is recoverable from the taxation authority. Where GST is not recoverable, it is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable.

Receivables and payables are stated inclusive of GST.

Reduced input tax credits (RITC) recoverable by the Funds from the Australian Taxation Office are recognised as receivables in the Balance Sheets.

Cash flows are included in the Cash Flow Statements on a gross basis. The GST component of cash flows, which is recoverable from, or payable to, the taxation authority is classified as operating cash flows.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE REPORTING PERIOD ENDED 30 JUNE 2021

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### (n) Expense Recognition

All expenses, including responsible entity fees and custodian fees, are recognised in profit or loss on an accruals basis.

#### (o) Use of Estimates

The Responsible Entity makes estimates and assumptions that affect the reported amounts of assets and liabilities within the next financial period. Estimates are continually evaluated and based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

For the majority of the Funds' financial instruments, quoted market prices are readily available. However, certain financial instruments, for example, over-the-counter derivatives or unquoted securities are fair valued using valuation techniques. Where valuation techniques (for example, pricing models) are used to determine fair values, they are validated and periodically reviewed by experienced personnel of the Responsible Entity, independent of the area that created them. Models are calibrated by back-testing to actual transactions to ensure that outputs are reliable.

Models use observable data, to the extent practicable. However, areas such as credit risk (both own and counterparty), volatilities and correlations require management to make estimates. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

#### (p) Unit Prices

Unit prices are determined in accordance with the Funds' Constitutions and are calculated as the net assets attributable to unitholders, divided by the number of units on issue. Financial assets and liabilities held at fair value through profit or loss for unit pricing purposes are valued on a "last sale" price basis.

#### (q) Investment Entity

The Responsible Entity has determined that the Funds are investment entities under the definition in AASB 10 as they meet the following criteria:

- (a) the Funds have obtained funds from unitholders for the purpose of providing them with investment management services;
- (b) the Funds' business purpose, which it communicated directly to unitholders, is investing solely for returns from capital appreciation and investment income; and
- (c) the performance of investments made by the Funds are measured and evaluated on a fair value basis.

The Funds also meet all of the typical characteristics of investment entities.

# COLONIAL FIRST STATE WHOLESALE FUNDS

## NOTES TO THE FINANCIAL STATEMENTS FOR THE REPORTING PERIOD ENDED 30 JUNE 2021

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### (r) Transactions in Foreign Currencies

Items included in the Funds' Financial Statements are measured using the currency of the primary economic environment in which it operates ("the functional currency"). This is the Australian dollar, which reflects the currency of the economy in which the Funds compete for funds and is regulated. The Australian dollar is also the Funds' presentation currency.

The Funds mainly transact in Australian currency.

Transactions in foreign currencies are initially recorded in the functional currency at the exchange rates prevailing at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the rate of exchange prevailing at the Balance Sheets date.

Exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were translated on initial recognition during the period or in a previous financial report, are recognised in the profit or loss in the period in which they arise.

The Funds do not isolate that portion of gains or losses on securities and derivative financial instruments that are measured at fair value through profit and loss and which is due to changes in foreign exchange rates from that which is due to changes in the market price of securities. Such fluctuations are included with the net gains or losses on financial instruments at fair value through profit and loss.

#### (s) New Application of Accounting Standards

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 January 2021, and have not been early adopted in preparing these financial statements. None of these are expected to have a material impact on the financial statements of the Funds.

#### (t) Structured Entities

A structured entity is an entity in which voting or similar rights are not the dominant factor in deciding control. Structured entities are generally created to achieve a narrow and well defined objective with restrictions around their ongoing activities. Depending on the Funds' power over the activities of the entity and their exposure to and ability to influence its own returns, they may control the entity. However, the Funds apply the Investment Entity Exemption available under AASB10 and therefore do not consolidate its controlled entities (Note 1(q)). In other cases they may have exposure to such an entity but not control it.

An interest in a structured entity is any form of contractual or non-contractual involvement which creates variability in returns arising from the performance of the entity for the Funds. Such interests include holdings of units in unlisted trusts, including managed investment schemes. The nature and extent of the Funds' interests in structured entities are titled "managed investment schemes" and are summarised in Note 1(b), "Financial Assets Held at Fair Value through Profit or Loss" and "Related Parties Disclosures" notes where appropriate. The total size of the structured entities that the Funds have exposure to is the net assets of the "managed investment schemes", which is determined based on the percentage interest held and carrying value disclosed in the "Related Parties Disclosures" note.

### 2. AUDITOR'S REMUNERATION

During the year, audit fees were paid by the Responsible Entity for services provided by PricewaterhouseCoopers Australia (PwC) as the auditor of the Funds. Other services provided by the auditor are the audit of the compliance plan of the Funds and tax compliance services which are also paid by the Responsible Entity. The Responsible Entity aggregates these fees with other costs incurred on behalf of the Funds in order to recharge a portion of these costs to the Funds, however no individual fund allocation of remuneration paid to the auditor has been determined by the Responsible Entity.

### 4. DISTRIBUTIONS TO UNITHOLDERS

The Responsible Entity adopts the policy of distributing as a minimum the net income for tax purposes. The amounts shown as "Distribution payable" in the Balance Sheets represent the components of the distributions for the reporting period which had not been paid at balance date.

#### Quarterly and half-yearly distributing Funds:

The amounts distributed or proposed to be distributed to unitholders in cents per unit (cpu) during the period were:

## NOTES TO THE FINANCIAL STATEMENTS FOR THE REPORTING PERIOD ENDED 30 JUNE 2021

### 5. FINANCIAL ASSETS AND LIABILITIES AT FAIR VALUE THROUGH PROFIT OR LOSS

#### (a) Fair Value Measurements

The Funds measure and recognise the following assets and liabilities at fair value on a recurring basis:

- Financial assets / liabilities at fair value through profit or loss
- Derivative financial instruments

The Funds have no assets or liabilities measured at fair value on a non-recurring basis in the current reporting period.

Other than the financial assets and liabilities classified as fair value through profit or loss, all other financial assets and liabilities of the fund are recognised initially at fair value and are subsequently measured at amortised cost.

In March 2020, the World Health Organisation declared COVID-19 as a pandemic. Governments in Australia and around the world have introduced significant restrictions to business in order to curb the spread of the virus. These include travel restrictions and quarantines which have disrupted supply chains and resulted in lower consumer demand and general market uncertainty. As a result, the effects of COVID-19 have impacted the global economy, the economies of certain nations and individual issuers, all of which have potentially impacted the Funds' performance. The pandemic has had, and continues to have, an impact on the general business environment and financial markets, which the Responsible Entity is monitoring.

#### (b) Fair Value Hierarchy

AASB 13 requires disclosure of fair value measurements by level of the following fair value measurement hierarchy:

- Level 1 for quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 for inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and
- Level 3 for inputs for the asset or liability that are not based on observable market data (unobservable inputs).

#### (i) Fair Value in an active market (Level 1)

The fair value of financial assets and liabilities traded in active markets is based on their quoted market prices at the end of the reporting period without any deduction for estimated future selling costs.

The Funds value their investments in accordance with policies set out in Note 1 to the financial statements. For the majority of these investments, the Funds rely on information provided by independent pricing services for the valuation of their investments.

The quoted market price used for financial assets held by the Funds is the current bid price; the appropriate quoted market price for financial liabilities is the current asking price. When the Funds hold derivatives with offsetting market risks, it uses mid-market prices as a basis for establishing fair values for the offsetting risk positions and applies this bid and asking price to the net open position, as appropriate.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

### 5. FINANCIAL ASSETS AND LIABILITIES AT FAIR VALUE THROUGH PROFIT OR LOSS (continued)

#### (b) Fair Value Hierarchy (continued)

##### (ii) Fair value in an inactive or unquoted market (Level 2 and Level 3)

The fair value of financial assets and liabilities that are not traded in an active market is determined using valuation techniques. These include the use of recent arm's length market transactions, reference to the current fair value of a substantially similar other instrument, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions.

Where discounted cash flow techniques are used, estimated future cash flows are based on management's best estimates and the discount rate used is a market rate at the end of the reporting period applicable for an instrument with similar terms and conditions.

For other pricing models, inputs are based on market data at the end of the reporting period. Fair values for unquoted equity investments are estimated, if possible, using applicable price/earnings ratios for similar listed companies adjusted to reflect the specific circumstances of the issuer.

The fair value of derivatives that are not exchange traded is estimated at the amount that the Funds would receive or pay to terminate the contract at the end of the reporting period taking into account current market conditions (volatility and appropriate yield curve) and the current creditworthiness of the counterparties. The fair value of a forward contract is determined as a net present value of estimated future cash flows, discounted at appropriate market rates as at the valuation date. The fair value of an option contract is determined by applying the Black Scholes option valuation model.

Investments in other managed investment schemes are recorded at the redemption value per unit as reported by the investment managers of such funds.

Some of the inputs to these models may not be market observable and are therefore estimated based on assumptions.

The output of a model is always an estimate or approximation of a value that cannot be determined with certainty, and valuation techniques employed may not fully reflect all factors relevant to the positions the Funds hold. Valuations are therefore adjusted, to allow for additional factors including liquidity risk and counterparty risk.

#### (b) Capital Risk Management

The Funds consider their net assets attributable to unitholders as capital. The amount of net assets attributable to unitholders can change significantly on a daily basis as the Funds are subject to daily applications and redemptions at the discretion of unitholders. Net assets attributable to unitholders are representative of the expected cash outflows on redemption.

Daily applications and redemptions are reviewed relative to the liquidity of the Funds' underlying assets on a daily basis by the responsible entity. Under the terms of the Funds' Constitutions, the Responsible Entity has the discretion to reject an application for units and to defer or adjust a redemption of units if the exercise of such discretion is in the best interests of unitholders.

### 8. RELATED PARTIES DISCLOSURES

#### (a) Responsible Entity

The Responsible Entity of the Funds is Colonial First State Investments Limited. The ultimate holding company is the Commonwealth Bank of Australia (CBA).

The Responsible Entity is incorporated and domiciled in Australia and has its registered office at Ground Floor Tower 1, 201 Sussex Street, Sydney, New South Wales, 2000.

On 13 May 2020, CBA entered into an agreement to sell a 55% interest in a company holding 100% of the shares in the Responsible Entity to an affiliate of Kohlberg Kravis Roberts & Co. L.P. (together with its affiliates, KKR). Subject to regulatory approvals, the sale is expected to be completed in the 2021 calendar year and KKR expects to make its investment primarily from its Asian private equity fund. Any changes to the operations of the Responsible Entity or the Funds as a result of this transaction is unknown at present.

#### (b) Details of Key Management Personnel

##### (i) Key Management Personnel

The Directors of Colonial First State Investments Limited are considered to be Key Management Personnel. The Directors of the Responsible Entity in office during the period and up to the date of the report are:

Name of Director	Date of Appointment or Resignation
Anne Ward	Resigned on 31 December 2020.
Penelope James	Appointed on 1 January 2013.
Edward James Eason	Resigned on 30 June 2021.
Benjamin Andrew Heap	Appointed on 1 January 2019.
Gregory Cooper	Appointed 12 November 2019.

##### (ii) Compensation of Key Management Personnel

No amounts are paid by the Funds directly to the Directors of the Responsible Entity of the Funds. Edward Eason is employed as an executive of the Commonwealth Bank of Australia, and in that capacity, part of his role is to act as a director of the Responsible Entity. Consequently, no compensation as defined in AASB 124: Related Parties is paid by the Funds to the Directors as Key Management Personnel.

#### (c) Responsible Entity's Management Fees

Under the terms of the Constitutions, the Responsible Entity is entitled to receive monthly management fees which are expressed as a percentage of the total assets of each fund (i.e. excluding liabilities). Management fees are paid directly by the Funds. The table below shows the current fee rates charged.

Where monies are invested into other funds managed by the Responsible Entity the management fees are calculated after rebating fees charged in the underlying funds. As a consequence, the amounts shown in the Statements of Comprehensive Income reflect only the amount of fees charged directly to the respective Funds.

### 8. RELATED PARTIES DISCLOSURES (continued)

#### (c) Responsible Entity's Management Fees (continued)

The management fees rate charged for the current and comparative reporting periods are as follows:

Name of Fund:	Period Ended 30/06/2021 Management Fees %	Period Ended 30/06/2020 Management Fees %
Colonial First State Wholesale Indexed Australian Bond Fund	0.30	0.30
Colonial First State Wholesale Indexed Global Bond Fund	0.30	0.30
Colonial First State Wholesale Indexed Australian Share Fund	0.30	0.30
Colonial First State Wholesale Indexed Global Share Fund	0.30	0.30
Colonial First State Wholesale Indexed Property Securities Fund	0.30	0.30

The actual management fee rate charged for global investing funds are lower than those disclosed above. This is due to these Funds being entitled to claim 100% of the Good and Services Tax ("GST") as compared to 75% for domestic investing Funds.

The Responsible Entity's management fees charged for the reporting periods are as follows:

Name of Fund:	Period Ended 30/06/2021 \$	Period Ended 30/06/2020 \$

#### (d) Management Expenses Recharged

The Responsible Entity is responsible for paying the custody fees on behalf of the Funds. The amount paid is based on the overall arrangement in place with the custodian. The Responsible Entity recharges the custody fees to the Funds. The amount recharged is disclosed as "Custody Fees" in the "Statements of Comprehensive Income".

The Responsible Entity is also responsible for paying certain expenses (such as audit fees, printing and postage) for the Funds. The amount recharged is based on the lower of the expenses paid or 0.03% of the net assets of the Funds. The amount recharged is disclosed under "Expenses Recharged" in the "Statements of Comprehensive Income".

#### (e) Bank and Deposit Accounts

The bank accounts and 11am deposit accounts for the Funds may be held with CBA. Fees and expenses are negotiated on an arm's length basis. Various short term money market, fixed interest securities and foreign currency transactions are from time to time transacted through CBA which receives a fee which is negotiated on an arm's length basis.

#### (f) Units Held by Related Parties

Other funds managed by the Responsible Entity or its affiliates may from time to time purchase or redeem units in the Funds. Such activity is undertaken in the ordinary course of business at entry and exit prices available to all investors at the time of the transaction.

The interests of Colonial First State Investments Limited and its associates in the Funds are tabled below:

## NOTES TO THE FINANCIAL STATEMENTS FOR THE REPORTING PERIOD ENDED 30 JUNE 2021

### 9. FINANCIAL RISK MANAGEMENT

Investing activities of the Funds may expose them to a variety of financial risks: market risk (including price risk, foreign exchange risk and interest rate risk), credit risk and liquidity risk.

The overall risk management programme focuses on ensuring compliance with its Product Disclosure Statement/Information Memorandum and seeks to maximise the returns derived for the level of risk to which the Funds are exposed. The Funds may use derivative financial instruments to alter certain risk exposures. Financial risk management is carried out by the respective investment management departments (Investment Managers) and regularly monitored by the Investment Review Services Department of the Responsible Entity.

Different methods are used to measure different types of risk to which it is exposed. These methods include sensitivity analysis in the case of interest rate, foreign exchange and other price risks and ratings analysis for credit risk.

#### (a) Market Risk

##### (i) Price Risk

Financial assets are either directly or indirectly exposed to price risk. This arises from investments held for which prices in the future are uncertain. They are classified on the balance sheet at fair value through profit or loss. All securities investments present a risk of loss of capital. The maximum risk resulting from financial instruments is determined by the fair value of the financial instruments.

An Investment Manager may mitigate price risk through diversification and a careful selection of securities and other financial instruments within specified limits and guidelines in accordance with the Product Disclosure Statement/Information Memorandum or Constitutions and monitored by the Investment Review Services Department of the Responsible Entity.

The table in part (b) under "Summarised Sensitivity Analysis" of the "Financial Risk Management" note to the financial statements summarises the impact of an increase/decrease of the Australian and global indexes on the Funds' net assets attributable to unitholders at the end of the reporting periods. The analysis is based on the assumptions that the relevant indexes increased or decreased as tabled with all other variables held constant and that fair values of the Funds move according to the historical correlation with the indexes.

##### (ii) Foreign Exchange Risk

The Funds may hold both monetary and non-monetary assets denominated in currencies other than the Australian dollar. The foreign exchange risk relating to non-monetary assets and liabilities is a component of price risk not foreign exchange risk. Foreign exchange risk arises as the value of monetary securities denominated in other currencies fluctuates due to changes in exchange rates. The risk is measured using sensitivity analysis.

The Funds may manage this risk by entering into foreign exchange forward contracts to hedge the risks. The terms and conditions of these contracts rarely exceed twelve months and are contracted in accordance with the investment guidelines.

The tables below summarises the Funds' assets and liabilities, monetary and non-monetary, that are denominated in a currency other than the Australian dollar.

#### (iii) Interest Rate Risk

Interest bearing financial instruments are exposed to fluctuations in the prevailing levels of market interest rates on their financial position and cash flows. Cash flow interest rate risk arises on financial instruments with variable interest rates. Financial instruments with fixed rates expose funds to fair value interest rate risk. The risk is measured using sensitivity analysis.

Certain funds may also enter into derivative financial instruments to mitigate the risk of future interest rate changes in accordance with the risk policies and guidelines of the Investment Managers. These transactions are regularly monitored by the Investment Review Services Department of the Responsible Entity. The table below summarises those funds with exposure to interest rate risks other than in cash only. It includes the Funds' assets and liabilities at fair values.

The table in part (b) under "Summarised Sensitivity Analysis" of the "Financial Risk Management" note to the financial statements, summarises the impact of an increase/decrease of interest rates on the Funds' operating profit and net assets attributable to unitholders through changes in fair value or changes in future cash flows. The analysis is based on the assumption that interest rates increase or decrease by a "predetermined basis points" from the year end rates with all other variables held constant. The impact mainly arises from changes in the fair value of debt securities. The "predetermined basis points" are disclosed in the table below.

#### (b) Summarised Sensitivity Analysis

The following tables summarise the sensitivity of the Funds' operating profit or loss and net assets attributable to unitholders to interest rate risk, foreign exchange risk and other price risk. The reasonably possible movements in the risk variables have been determined based on management's best estimate, having regard to a number of factors, including historical levels of changes in interest rates and foreign exchange rates, historical correlation of the Funds' investments with the relevant benchmark and market volatility. However, actual movements in the risk variables may be greater or less than anticipated due to a number of factors, including unusually large market shocks resulting from changes in the performance of and/or correlation between the performance of the economies, markets and securities in which the Funds invest. As a result, historic variations in risk variables should not be used to predict future variations in the risk variables.

Certain funds may not be subject to all these risks and are denoted with "-" in the tables below.

### 9. FINANCIAL RISK MANAGEMENT (continued)

#### (c) Credit risk

Credit risk is the risk that a counterparty will be unable to pay amounts in full when they fall due. Credit risk primarily arises from investments in debt securities and derivative products. Other credit risk arises from cash and cash equivalents, deposits with banks and other financial institutions, amounts due from brokers and other receivables.

Some funds may transact in derivatives in the over the counter (OTC) markets. OTC derivatives are entered into directly with the counterparty as there is no Clearing House arrangement. Such transactions are only dealt through suitably credit-worthy counterparties. The maximum exposure to credit risk for these OTC derivatives is the contract/notional amount, as shown in the "Derivative Financial Instruments" note to the financial statements.

Certain funds invest in debt securities which have an investment grade as rated by the Standard & Poor's rating agency. For unrated assets a rating is assigned by the Investment Manager using an approach that is consistent with the approach used by rating agencies.

The exposure to credit risk for cash and cash equivalents is low as all counterparties have a credit rating of at least AA.

The maximum exposure to credit risk at the reporting date is the carrying amount of the financial assets and the contract/notional amount of the OTC derivatives. An analysis of debt securities by rating is set out in the table below for the Funds which have such securities.

### 9. FINANCIAL RISK MANAGEMENT (continued)

#### (d) Liquidity risk

The Funds are exposed to daily cash redemptions of redeemable units. They therefore primarily hold investments that are traded in an active market and can be readily disposed. Only a limited proportion of their assets are held in investments not actively traded on a stock exchange.

The Funds' listed securities are considered readily realisable, as they are listed on either the Australian Stock Exchange or other recognised International Stock Exchanges.

Certain funds may, from time to time, invest in derivative contracts traded over the counter, which are not traded in an organised market and may be illiquid. As a result, the Funds may not be able to quickly liquidate their investments in these instruments at an amount close to their fair value to meet its liquidity requirements or to respond to specific events such as deterioration in the creditworthiness of any particular issuer or counterparty. Investments with a higher liquidity risk have been disclosed under "Level 3" in the "Fair Value Hierarchy" of "Financial Assets and Liabilities Held at Fair Value through Profit or Loss" note to the Financial Statements.

The Funds' financial liabilities, excluding derivative financial liabilities, comprise trade and other payables and are contractually due within 30 days.

The table below analyses the Funds' derivative financial instruments into relevant maturity groupings based on the remaining period to the contractual maturity date at the year end date. The amounts disclosed in the table are the contractual undiscounted gross cash flows expected to be paid or received, determined by reference to the conditions existing at the reporting period end date. The contractual amounts can be settled on a gross or net basis.

### 10. DERIVATIVE FINANCIAL INSTRUMENTS

In the normal course of business the Funds may enter into transactions in various derivative financial instruments which have certain risks. A derivative is a financial instrument or other contract which is settled at a future date and whose value changes in response to the change in a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index or other variable.

Derivative financial instruments require no initial net investment or an initial net investment that is smaller than would be required for other types of contracts that would be expected to have a similar response to changes in market factors.

Derivative transactions include many different instruments such as forwards, futures and options. Derivatives are considered to be part of the investment process and the use of derivatives is an essential part of the Funds' portfolio management. Derivatives are not managed in isolation. Consequently, the use of derivatives is multifaceted and includes:

- hedging to protect an asset or liability against a fluctuation in market values, to reduce volatility or as a substitution for trading of physical securities and
- adjusting asset exposures within the parameters set in the investment strategy, and adjusting the duration of fixed interest portfolios or the weighted average maturity of cash portfolios.

While derivatives are used for trading purposes, they are not used to gear (leverage) a portfolio. Gearing a portfolio would occur if the level of exposure to the markets exceeds the underlying value of the Funds.

Derivative instruments used by the Funds may include the following:

#### - **Futures**

Futures are contractual obligations to buy or sell financial instruments on a future date at a specified price established in an organised market. The futures contracts are collateralised by cash or marketable securities. Changes in futures contracts' values are usually settled net daily with the exchange. Interest rate futures are contractual obligations to receive or pay a net amount based on changes in interest rates at a future date at a specified price, established in an organised market.

#### - **Options**

An option is a contractual agreement under which the seller (writer) grants the purchaser (holder) the right, but not the obligation, either to buy (a call option) or sell (a put option) at or buy a set date or during a set period, a specific amount of securities or a financial instrument at a predetermined price. The seller receives a premium from the purchaser in consideration for the assumption of future securities price. Options held by the Funds are exchange-traded. The Funds are exposed to credit risk on purchased options to the extent of their carrying amount, which is their fair value. Options are settled on a gross basis.

### 10. DERIVATIVE FINANCIAL INSTRUMENTS (continued)

#### - Forward Currency Contracts

Forward currency contracts are primarily used by the Funds to hedge against foreign currency exchange rate risks on its non-Australian dollar denominated trading securities. The Funds agree to receive or deliver a fixed quantity of foreign currency for an agreed upon price on an agreed future date. Forward currency contracts are valued at the prevailing bid price at the reporting date. The Funds recognise a gain or loss equal to the change in fair value at the reporting date.

#### - Interest Rate Swaps

Interest rate swap contracts are agreements under which the parties exchange one stream of interest for another. They are used to hedge cash flows against unfavourable movements in interest rates. The contracts are for interest rates on notional principal amounts and can cover, for example, fixed interest rate to floating rate or fixed rate and floating rate to fixed rate. The party with the higher interest obligation pays the net amount to the other party. The amount received is considered an offset to the interest on investment or debt hedged. At reporting dates, the differences expected to be paid or received on the maturity of the contracts are marked-to-market with the unrealised gains and losses being recognised in investment revenue.

#### - Cross Currency Swaps

A cross currency swap is a foreign exchange agreement between two parties to exchange principal and interest payments on a loan in one currency for principal and interest payments on an equal (regarding net present value) loan in another currency. Unlike interest rate swaps, cross currency swaps involve the exchange of the principal amount. Interest payments are not netted (as they are in interest rate swaps) because they are denominated in different currencies. Cross currency swaps are valued at fair value which is based on the estimated amount the Funds would pay or receive to terminate the currency derivatives at the balance sheet date, taking into account current interest rates, foreign exchange rates, volatility and the current creditworthiness of the counterparties.

#### - Credit Default Swaps

A credit default swap is a swap contract in which the buyer makes a series of payments to the seller and, in exchange, receives a payoff if a particular credit event occurs. The credit event can be a credit instrument, typically a bond or loan, that goes into default or a company undergoing restructuring, bankruptcy or having its credit rating downgraded. Credit derivatives are valued at fair value which is based on the estimated amount the Funds would pay or receive to terminate these derivatives at the balance sheet date, taking into account current interest rates, volatility and credit risk.

#### - Warrants

Warrants are an option to purchase additional securities from the issuer at a specified price during a specified period. Warrants are valued at the prevailing market price at the end of each reporting period. The Funds recognise a gain or loss equal to the change in fair value at the end of each reporting period.

### 11. OFFSETTING FINANCIAL ASSETS AND FINANCIAL LIABILITIES

Certain funds will present the fair value of their derivative assets and liabilities on a gross basis. Certain derivative financial instruments are subject to enforceable master netting arrangements, such as an International Swaps and Derivatives Association (ISDA) master netting agreement. In certain circumstances, for example, when a credit event such as a default occurs, all outstanding transactions under the ISDA agreement are terminated, the termination value is assessed and only a single net amount may be payable in settlement of all transactions.

The gross and net positions of financial assets and liabilities that have been offset in the balance sheet for the Funds are disclosed below:

Legends for the table below:

a - Gross amounts of financial assets/(liabilities)

b - Gross amounts set off in the statement of financial position

c - Net amounts of financial assets/(Liabilities) presented in the statement of financial position

d - Amounts subject to Master netting arrangements which are not currently enforceable

e - Financial Instrument collateral

f - Cash Collateral

g - Net Amount

- Liabilities	(3,783)	-	(3,783)	-	-	-

Agreements with derivative counterparties are based on the ISDA Master Agreement. Under the terms of these arrangements, only where certain credit events occur (such as default), the net position owing/ receivable to a single counterparty in the same currency will be taken as owing and all the relevant arrangements terminated. As the Funds do not presently have a legally enforceable right of set-off, these amounts have not been offset in the balance sheet, but have been presented separately in the above table.

### **NOTES TO THE FINANCIAL STATEMENTS FOR THE REPORTING PERIOD ENDED 30 JUNE 2021**

#### **12. STRUCTURED ENTITIES**

Certain funds have exposures to unconsolidated structured entities through trading activities. These funds typically have no other involvement with the structured entities other than the securities they hold as part of trading activities and their maximum exposure to loss is restricted to the carrying value of the asset.

Exposure to trading assets are managed in accordance with financial risk management practices as set out in "Financial Risk Management" note, which includes an indication of changes in risk measures compared to prior year.

#### **13. CONTINGENT LIABILITIES AND COMMITMENTS**

The Funds did not have any contingent liabilities or commitments at the end of the current and previous reporting period.

#### **14. EVENTS AFTER BALANCE SHEET DATE**

No significant events have occurred since balance sheet date which would impact on the financial positions of the Funds disclosed in the Balance Sheets as at 30 June 2021 or on the results and cash flows of the Funds for the reporting period ended on that date.
