[^] S&P/ASX 300 Accumulation Index (100%)

Past performance is not an indicator of future performance for this option or any other option available from Colonial First State.

Returns are calculated on a cumulative year-on-year basis which are then annualised. For funds that have been in existence for less than one year, the since inception performance is actual performance since inception and not annualised. Calculations are based on exit price to exit price with distributions reinvested, after ongoing fees and expenses but excluding individual tax, member fees and entry fees (if applicable). Please refer to the PDS for full details of the applicable fees, costs, and benchmarks.

Investment objective

To maximise risk-adjusted, long-term returns by investing in stocks listed on the Australian Securities Exchange while carefully controlling portfolio risk and transaction costs. The option aims to outperform the S&P/ASX 300 Accumulation Index over rolling four year periods before fees and taxes.

Investment strategy

The option's investment strategy is based on the belief that markets are inefficient, creating price anomalies that can be exploited by a disciplined, objective investment process. Acadian's investment approach employs structured stock and peer group valuation models, which are designed to capture a broad range of relevant characteristics such as quality, value, earnings growth and price-related factors. This aims to systematically unearth securities with unrecognised value, as well as improving earnings prospects to help unlock that value.

Investment category

Australian Share

Minimum suggested timeframe

At least 7 years

Investment ranges

Asset class	Range	Benchmark
Australian shares	95% - 100%	100%
Cash	0% - 5%	0%
