Past performance is not an indicator of future performance for this option or any other option available from Colonial First State.

Returns are calculated on a cumulative year-on-year basis which are then annualised. For funds that have been in existence for less than one year, the since inception performance is actual performance since inception and not annualised. Calculations are based on exit price to exit price with distributions reinvested, after ongoing fees and expenses but excluding individual tax, member fees and entry fees (if applicable). Please refer to the PDS for full details of the applicable fees, costs, and benchmarks.

Investment objective

To provide capital growth and income from a diversified portfolio of global listed infrastructure investments. To outperform the FTSE Developed Core Infrastructure Index, hedged to Australian dollars, over rolling three-year periods before fees and taxes.

Investment strategy

To invest in a diversified portfolio of infrastructure securities. The investments are managed by a number of leading global infrastructure securities managers, which is designed to deliver more consistent returns with less risk than would be achieved if investing with a single investment manager. The portfolio aims to hedge currency risk.

Investment category

Global property and infrastructure securities

Minimum suggested timeframe
