Past performance is not an indicator of future performance for this option or any other option available from Colonial First State.

All returns are calculated on an annualised basis using exit price to exit price with distributions reinvested, net of management costs, transaction costs and for FirstChoice Personal Super and FirstChoice Employer Super net of tax payable by the trustee. All return calculations exclude contribution surcharge, excess contribution tax or individual taxes payable by the investor and all other fees and rebates disclosed in the relevant Product Disclosure Statements (PDSs). For FirstChoice Investments, the 'distribution' component is the amount paid by the way of distribution, which may include net realised capital gains.

Please refer to the PDS for full details of the applicable fees, costs, and benchmarks. The Target Market Determinations (TMD) for our financial products can be found at www.cfs.au/tmd and include a description of who the financial product is appropriate for.

Investment objective

To provide relatively stable returns over the medium term with the potential for some long-term capital growth. To outperform the option's composite benchmark over rolling three-year periods before fees and taxes.

Investment strategy

To allocate 70% of investments to defensive assets such as fixed interest and cash to provide the portfolio with relatively stable returns. 30% of the portfolio is allocated to growth assets, such as shares, property and infrastructure securities, to provide the potential for capital growth. The portfolio aims to hedge currency risk except for the allocation to emerging market shares and part of the allocation to global shares.

Investment category

Conservative

Minimum suggested timeframe

At least 3 years

Asset allocation

Returns are calculated using exit price to exit price with distributions reinvested, net of management and transaction costs. A 4% contribution fee has also been applied, your investment may not be subject to a 4% contribution fee so your outcome may be better than displayed in this chart.

Quarterly contribution per asset class *

* Contribution is calculated of the gross returns of the underlying investment vehicle
