Investment options

Pooled Superannuation Trust

Australian Share Option

Underlying manager – First Sentier Investors (Australia) IM Ltd*

Objective

To provide long-term capital growth with some income by investing in a broad selection of Australian companies. The option aims to outperform the S&P/ASX 300 Accumulation Index over rolling three year periods before fees and taxes.

Strategy

The option's strategy is based on the belief that, over the medium-to-long term, stock prices are driven by the ability of management to generate excess returns over their cost of capital in their chosen industry. The option generally invests in high quality companies with strong balance sheets and earnings. The option predominantly invests in Australian companies and therefore does not hedge currency risk.

Conservative Option

Underlying manager – First Sentier Investors (Australia) IM Ltd*

Objective

To provide long-term capital preservation with an income focus. The option aims to outperform the composite benchmark over rolling three-year periods before fees and taxes.

Strategy

The option's broad asset allocation is to be 30% invested in growth assets (shares and property securities) and 70% in defensive assets (fixed interest and cash). Allocations are reviewed regularly although a reallocation is only considered in response to a fundamental change in longterm expectations or market demand. The option aims to add value through a disciplined approach to the selection of the investments held by the option. Derivatives may be used for risk management. The option may hedge some or all of its currency exposure.

Diversified Option

Underlying manager – First Sentier Investors (Australia) IM Ltd*

Objective

To provide long-term capital growth. The option aims to outperform the composite benchmark over rolling three-year periods before fees and taxes.

Strategy

The option's broad asset allocation is to be 70% invested in growth assets (shares and property securities) and 30% in defensive assets (fixed interest and cash). Allocations are reviewed regularly although a reallocation is only considered in response to a fundamental change in longterm expectations or market demand. The option aims to add value through a disciplined approach to the selection of the investments held by the option. Derivatives may be used for risk management. The option may hedge some or all of its currency exposure.

Property Securities Option

Underlying manager – First Sentier Investors (Australia) IM Ltd*

Objective

To provide medium-to-long-term capital growth and income to the investor by investing in a portfolio of Australian listed property securities. The option aims to outperform the S&P/ASX 200 A-REIT Accumulation Index over rolling three-year periods before fees and taxes.

Strategy

The option's strategy is to bring together specialist resources in order to identify undervalued Australian real estate securities with minimal downside risk, sustainable earnings growth and good qualitative attributes. The option uses proprietary forecasting and valuation methodologies and a disciplined portfolio construction process with an over-riding focus on absolute and relative risk. The option invests predominantly in Australian securities and therefore does not hedge currency exposure.

1 The annual effective rate of net earnings is calculated on an exit price to exit price basis, net of taxes payable and after ongoing fees and expenses, but excluding entry fees and individual taxes.

2 Closed to new investments.

All Unitholders of the Trust share in the increase or decrease in the value of the net asset pool relevant to their investment option.
Past performance is no indication of future performance.

Information on fees and charges

Application fees and exit fees

There are no application fees or exit fees payable upon entering or leaving the Trust.

Investment transaction costs

The entry and exit unit prices reflect an adjustment to net tangible assets (NTA) to allow for transaction costs (such as stamp duty and brokerage) as follows:

Colonial First State Pooled Superannuation Trust	Transaction Costs on Entry/Exit 1 July 2019 to 30 June 2020		Transaction Costs on Entry/Exit 1 July 2018 to 30 June 2019

Ongoing fees and expenses

Trustee fees

Colonial First State Investments Limited is entitled to receive a fee based on the gross assets of each investment option. The fee is payable at the end of each month. The amount of this fee is shown in the table below.

The Trustee fees are paid out of the Trust and are expressed as a percentage of the gross assets of each investment option at the following rates:

Colonial First State Pooled Superannuation Trust	Trustee fees 1 July 2019 – 30 June 2020 % pa
Conservative Option	0.75%
Diversified Option	0.95%
Australian Share Option	0.95%
Property Securities Option	0.80%

The trust deed allows a maximum trustee fee of 2.00% per annum.

Where monies are invested into other schemes managed by the Trustee, the Trustee's fee is calculated after taking into account management fees charged in the underlying schemes.

As a consequence, the amount shown as Trustee fees in the Statement of Financial Performance reflects only the amount of fees charged directly to the Trust.

Ongoing operating expenses

The Trust Deed allows for the ongoing operating expenses (such as registry, audit, taxation advice, expenses prospectus, accounts, stationery and postage) to be paid directly from each investment option. However, until further notice the Trustee will pay such amounts. No limit is placed on the amount of the ongoing expenses that can be paid from each investment option.

Other costs

Transaction costs (bank charges and account transaction charges) are paid out of the options. Some of these costs are recouped by making an adjustment to the NTA for applications and withdrawals.

Abnormal costs (such as costs of investor meetings, changes to the Trust Deed and defending legal proceedings, and special valuations of assets) are payable from the Trust. These costs are relatively unusual, fairly infrequent costs and tend to be relatively insignificant over time.

Information on fees and charges

Likely developments and expected results of operations

The Trust will continue to pursue its current investment policy in accordance with the objectives as set out in the Product Disclosure Statement.

At the time of preparing this report the Trustee is not aware of any likely developments which would impact upon the future operations of the Trust.

Matters subsequent to the end of the financial year

No matter or circumstance has arisen since 30 June 2020 that has significantly affected, or may significantly affect:

- (i) the operations of the Trust in future financial years, or
- (ii) the results of those operations in future financial years, or
- (iii) the state of affairs of the Trust in future financial years.

Other important information

The Colonial First State Pooled Superannuation Trust is subject to a maximum 15% earnings tax rate on net investment income and capital gains. The Trust may benefit from tax concessions arising from dividend imputation credits, foreign tax credits, tax free capital gains due and other taxfree components. The benefit of these credits is passed on to unitholders.

Each investment option in the Trust invests 100% of its assets into an equivalent wholesale trust. The only exception to this would be investments in cash that is held from time-to-time.

Amounts for fees, expenses or charges have been deducted from a common fund for the period 1 July 2019 to 30 June 2020. These deductions are borne indirectly by the holders of the product and may affect the return to the holders. Further information about the deductions can be obtained by contacting us on 13 13 36.

Indemnity insurance

The Trustee is responsible for its activities and carries professional indemnity insurance.

Method of allotment of earnings in all investment options

All income, including realised and unrealised capital gains and losses, and expenses for all investment options are brought to account and are fully reflected in the unit price of that option. Income tax as appropriate is provided for in the unit price for each investment option.

Trustee's policy for the use of derivatives

The Trustee has a detailed Derivative Risk Management Policy which covers the use of derivatives, the controls over their use, and the processes of assessing compliance with those controls. These policies and controls are intended to ensure proper use of derivatives. The Fund has an indirect exposure to derivatives through its investments in other managed investment schemes managed by the Trustee.

Derivatives are used in the underlying investments as an alternative to direct purchases or sales and not for trading purposes.
