^ RBA Cash Rate + 3% pa (100%)

Past performance is not an indicator of future performance for this option or any other option available from Colonial First State.

Returns are calculated on a cumulative year-on-year basis which are then annualised. For funds that have been in existence for less than one year, the since inception performance is actual performance since inception and not annualised. Calculations are based on exit price to exit price with distributions reinvested, after ongoing fees and expenses but excluding individual tax, member fees and entry fees (if applicable). Please refer to the PDS for full details of the applicable fees, costs, and benchmarks.

Investment objective

The option aims to achieve a return of 3% - 5% p.a. (net of fees), above the RBA Cash Rate Target (Benchmark) over rolling 3-year periods.

Investment strategy

The option aims to outperform the Benchmark by providing investors with a source of risk controlled absolute returns that are, over time, expected to have low correlations with the returns of major asset classes. The option has exposure to a diversified range of absolute return investment strategies through investment in a number of pooled investment vehicles (Strategy options) each of which offers daily dealing and daily liquidity.

Investment category

Alternatives

Minimum suggested timeframe

At least 5 years
