Past performance is not an indicator of future performance for this option or any other option available from Colonial First State.

Returns are calculated on a cumulative year-on-year basis which are then annualised. For funds that have been in existence for less than one year, the since inception performance is actual performance since inception and not annualised. Calculations are based on exit price to exit price with distributions reinvested, after ongoing fees and expenses but excluding individual tax, member fees and entry fees (if applicable). Please refer to the PDS for full details of the applicable fees, costs, and benchmarks.

Investment objective

To provide a balance of income and capital growth over the medium-to-long term. To outperform the fund's composite benchmark over rolling three-year periods before fees and taxes.

Investment strategy

The option allocates 60% of investments to growth assets such as shares and property and infrastructure securities to provide potential for capital growth. The shares component is managed using an approach aiming to deliver long term returns above that of market capitalisation indices. The property and infrastructure components are managed to closely match the returns of relevant market capitalisation indices.

Investment category

Moderate

Minimum suggested timeframe
