Past performance is not an indicator of future performance for this option or any other option available from Colonial First State.

Returns are calculated on a cumulative year-on-year basis which are then annualised. For funds that have been in existence for less than one year, the since inception performance is actual performance since inception and not annualised. Calculations are based on exit price to exit price with distributions reinvested, after ongoing fees and expenses but excluding individual tax, member fees and entry fees (if applicable). Please refer to the PDS for full details of the applicable fees, costs, and benchmarks.

Investment objective

To outperform the MSCI All Country World Index over rolling five year periods before fees and taxes.

Investment strategy

The option is a purely stock-driven, unconstrained global equity strategy focused on investing in exceptional growth companies. This approach is expressly long term, with Baillie Gifford holding a belief that investing in companies with the scope to grow to multiples of their current size has the potential to transform the returns for investors over time. The option does not hedge currency risk.
