^ Custom benchmark (refer to PDS for details)

Past performance is not an indicator of future performance for this option or any other option available from Colonial First State.

Returns are calculated on a cumulative year-on-year basis which are then annualised. For funds that have been in existence for less than one year, the since inception performance is actual performance since inception and not annualised. Calculations are based on exit price to exit price with distributions reinvested, after ongoing fees and expenses but excluding individual tax, member fees and entry fees (if applicable). Please refer to the PDS for full details of the applicable fees, costs, and benchmarks.

Investment objective

To provide capital growth and income over the long term. To closely track the option's composite benchmark over rolling three-year periods before fees and taxes.

Investment strategy

The option allocates 70% of investments to growth assets such as shares, property and infrastructure securities to provide potential for capital growth. The growth assets are managed using market capitalisation indices. 30% of the portfolio is allocated to defensive assets such as fixed interest and cash to provide the portfolio with relatively stable returns. The fixed interest component is managed on a traditional index basis while the cash component may include money market securities, bank deposits and annuities.
