Past performance is not an indicator of future performance for this option or any other option available from Colonial First State.

Returns are calculated on a cumulative year-on-year basis which are then annualised. For funds that have been in existence for less than one year, the since inception performance is actual performance since inception and not annualised. Calculations are based on exit price to exit price with distributions reinvested, after ongoing fees and expenses but excluding individual tax, member fees and entry fees (if applicable). Please refer to the PDS for full details of the applicable fees, costs, and benchmarks.

Investment objective

To magnify long-term capital growth by borrowing to invest in predominantly Australian companies. The option aims to outperform the S&P/ASX 100 Accumulation Index over rolling seven-year periods before fees and taxes.

Investment strategy

This option uses detailed risk analysis to design a portfolio of shares that provides the greatest likelihood of matching the performance of the S&P/ASX 100 Accumulation Index. All shares in this option are maintained within a very close margin to their weight in the index. The option predominantly invests in Australian companies and therefore does not hedge currency risk. The option utilises gearing to magnify returns from underlying investments.
