Returns are calculated on a cumulative year-on-year basis which are then annualised. For funds that have been in existence for less than one year, the since inception performance is actual performance since inception and not annualised. Calculations are based on exit price to exit price with distributions reinvested, after ongoing fees and expenses but excluding individual tax, member fees and entry fees (if applicable). Please refer to the PDS for full details of the applicable fees, costs, and benchmarks.

### Investment objective

To magnify long-term returns capital growth by borrowing to invest in a diversified portfolio of global shares. The option aims to outperform the MSCI All Country World (ex Australia) Index in Australian dollar terms over rolling seven-year periods before fees and taxes.

### Investment strategy

This option uses detailed risk analysis to design a portfolio of shares that provides the greatest likelihood of matching the performance of the MSCI All Country World (ex Australia) Index. The option utilises gearing (borrowing) to magnify returns from underlying investments. The option does not hedge investors' capital but may hedge up to 100% of the currency exposure relating to the borrowings.
