Past performance is not an indicator of future performance for this option or any other option available from Colonial First State.

Returns are calculated on a cumulative year-on-year basis which are then annualised. For funds that have been in existence for less than one year, the since inception performance is actual performance since inception and not annualised. Calculations are based on exit price to exit price with distributions reinvested, after ongoing fees and expenses but excluding individual tax, member fees and entry fees (if applicable). Please refer to the PDS for full details of the applicable fees, costs, and benchmarks.

Investment objective

To closely track the S&P/ASX 200 A-REIT Accumulation Index with the aim of generating returns (before taxes and fees and assuming income is reinvested) comparable to the listed property sector of the Australian sharemarket, as measured by that benchmark over rolling one-year periods.

Investment strategy

Detailed risk analysis is used to design a portfolio of property securities which provides the greatest likelihood of matching the performance of the S&P/ASX 200 A-REIT Accumulation Index. All securities in this option are maintained within a very close margin to their weight in the index. The option predominantly invests in Australian property securities and therefore does not hedge currency risk.
